w03_u4_pad312_1f2a: 5000 kr from Norwegian Citizen Panel: To Doctors without borders or random participant, can affect outcome, is among 3 participants

Information	[Type= discrete] [Format=numeric] [Range= 1-3] [Missing=*]
Statistics [NW/ W]	[Valid=8515 /-] [Invalid=2127 /-]
Literal question	Consider the scenario that one of the researchers associated with the Norwegian Citizen Panel has NOK 5,000 available. This money will either be raffled off as a gift card to one of the participants in the Norwegian Citizen Panel, or will be donated to the charity Doctors without borders. You have the opportunity to influence this decision, and you are one of three selected respondents who get to vote on how the money is to be used. What do you prefer?
Interviewer's instructions	[Asked if U=4 and ran36=6. Respondents recruited in wave 1 that have been exposed for w01_DT14 or w01_DT15, are not asked this question]

Value	Label	Cases	Percentage
1	A gift card worth NOK 5,000 is raffled to a participant in the Norwegian Citizen Panel	8	0.1%
2	A gift of NOK 5,000 is donated to the charity Doctors without borders	81	1.0%
3	Have no opinion	14	0.2%
97	No answer	2	0.0%
98	Not asked	8410	98.8%
Sysmiss		2127	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

w03_u4_pad312_1a2b: 5000 kr from Norwegian Citizen Panel, as compensation: To Doctors without borders or random participant, cannot affect outcome

Information	[Type= discrete] [Format=numeric] [Range= 1-3] [Missing=*]
Statistics [NW/ W]	[Valid=8515 /-] [Invalid=2127 /-]

w03_u4_pad312_1a2b: 5000 kr from Norwegian Citizen Panel, as compensation: To Doctors without borders or random participant, cannot affect outcome

Literal question	Imagine the scenario that participants in the Norwegian Citizen Panel have NOK 5,000 available as compensation for participating. This money will either be raffled off as a gift card to one of the participants in the Norwegian Citizen Panel, or will be donated to the charity Doctors without borders. You do not have the opportunity to influence this decision, but it is still interesting to hear how you would like the money to be used. What do you prefer?
Interviewer's instructions	[Asked if U=4 and ran36=7. Respondents recruited in wave 1 that have been exposed for w01_DT14 or w01_DT15, are not asked this question]

Value	Label	Cases	Percentage
1	A gift card worth NOK 5,000 is raffled to a participant in the Norwegian Citizen Panel	12	0.1%
2	A gift of NOK 5,000 is donated to the charity Doctors without borders	106	1.2%
3	Have no opinion	8	0.1%

w03_vignett_1: 1 of 8 vignettes that respondents may be exposed to. Must be seen in conjunction with R3KM11 to R3KM19. See variable documentation.

Information	[Type= discrete] [Format=numeric] [Missing=*]
Statistics [NW/ W]	[Valid=8515 /-] [Invalid=2127 /-]
Literal question	Imagine that you read the following in the newspaper: The global climate has been fairly stable for several thousand years. However during the last one hundred years the global temperature has risen. Emissions of greenhouse gases from energy production, industry and traffic are among the key reasons. An expert expects that the increased temperature will cause the sea level to rise by between 30 and 100 cm by the end of this century. He says that it is entirely possible that the rise will be within this interval. He points out that the development can be stopped by immediately reducing emissions of greenhouse gases.
Interviewer's instructions	[Exposed if U=5 and ran40=1. Respondents using mobile device are not exposed to the vignette or questions R3KM11-R3KM19]

Value	Label	Cases	Percentage
0	Not exposed	0

w03_pra1ab: Reduce the amount spent on financial assistance, quite a bit or just a little

Information	[Type= discrete] [Format=numeric] [Range= 1-2] [Missing=*]
Statistics [NW/ W]	[Valid=8515 /-] [Invalid=2127 /-]
Literal question	Do you think the Norwegian government should decrease spending on financial assistance quite a bit or just a little?
Interviewer's instructions	[Asked if U=5 and ran46=1, and PRA1A=3]

Value	Label	Cases	Percentage
1	Quite a bit	82	1.0%
2	Just a little	40	0.5%
97	No answer	1	0.0%
98	Not asked	8392	98.6%
Sysmiss		2127	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

w03_pra2aba: Norwegian authorities have a moral obligation to give aid to the poor in other countries

Information	[Type= discrete] [Format=numeric] [Range= 1-4] [Missing=*]
Statistics [NW/ W]	[Valid=8515 /-] [Invalid=2127 /-]
Literal question	Do you agree or disagree that the Norwegian government has a moral obligation to provide financial assistance to the poor in other countries?
Interviewer's instructions	[Asked if U=5 and ran46=1. PRA2Aba and PRA2Ba is asked on the same page, and the order is randomized]

Value	Label	Cases	Percentage
1	Agree strongly	354	4.2%
2	Agree somewhat	345	4.1%
3	Disagree somewhat	72	0.8%
4	Disagree strongly	40	0.5%
97	No answer	14	0.2%
98	Not asked	7690	90.3%
Sysmiss		2127	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

w03_pra2ba: Whom should receive economic assistance

Information	[Type= discrete] [Format=numeric] [Range= 1-3] [Missing=*]
Statistics [NW/ W]	[Valid=8515 /-] [Invalid=2127 /-]
Literal question	To whom do you believe the Norwegian government has a greater moral obligation to provide economic assistance?
Interviewer's instructions	[Asked if U=5 and ran46=1. PRA2Aba and PRA2Ba is asked on the same page, and the order is randomized]

Value	Label	Cases	Percentage
1	The poor in other countries	49	0.6%
2	The poor in Norway	282	3.3%
3	The government has an equal moral obligation to assist both	481	5.6%
97	No answer	13	0.2%
98	Not asked	7690	90.3%
Sysmiss		2127	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

w03_pra3a: The effectiveness of financial assistance to reduce poverty in Norway

Information	[Type= discrete] [Format=numeric] [Range= 1-4] [Missing=*]
Statistics [NW/ W]	[Valid=8515 /-] [Invalid=2127 /-]
Literal question	How effective do you think Norway's financial assistance programs have been at reducing poverty in Norway?
Interviewer's instructions	[Asked if U=5 and ran46=1]

Value	Label	Cases	Percentage
1	Very effective	98	1.2%
2	Somewhat effective	401	4.7%
3	Not too effective	272	3.2%
4	Not at all effective	27	0.3%
97	No answer	27	0.3%
98	Not asked	7690	90.3%
Sysmiss		2127	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

w03_pra4a: The reason that most recipients of financial assistance are poor

Information	[Type= discrete] [Format=numeric] [Range= 1-7] [Missing=*]
Statistics [NW/ W]	[Valid=8515 /-] [Invalid=2127 /-]
Literal question	Why do you think most recipients of financial assistance are poor?
Interviewer's instructions	Use the scale below where 1 is “Because they don't work hard enough" and 7 is “Because of circumstances beyond their control." [Asked if U=5 and ran46=1]

Value	Label	Cases	Percentage
1	1 – Because they don't work hard enough	16	0.2%
2	2	27	0.3%
3	3	102	1.2%
4	4	217	2.5%
5	5	235	2.8%
6	6	141	1.7%
7	7 – Because of circumstances beyond their control	66	0.8%
97	No answer	21	0.2%
98	Not asked	7690	90.3%
Sysmiss		2127	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

w03_pra5a: Probability that recipients of financial assistance lacked basic necessities before they got help from the Norwegian authorities

Information	[Type= discrete] [Format=numeric] [Range= 1-4] [Missing=*]
Statistics [NW/ W]	[Valid=8515 /-] [Invalid=2127 /-]
Literal question	How likely is it that the recipients of financial assistance lacked basic necessities such as shelter and nutritious food before receiving assistance from the Norwegian government?
Interviewer's instructions	[Asked if U=5 and ran46=1]

Value	Label	Cases	Percentage
1	Very likely	148	1.7%
2	Somewhat likely	446	5.2%
3	Not too likely	190	2.2%
4	Not at all likely	9	0.1%

w03_pra5a: Probability that recipients of financial assistance lacked basic necessities before they got help from the Norwegian authorities

R4KM3a: Vignette 1

Information	[Type= discrete] [Format=numeric] [Missing=*]
Statistics [NW/ W]	[Valid=176 /-] [Invalid=10466 /-]
Literal question	We are interested in knowing how people perceive and interpret texts about climate issues. Below you will find a text about this very subject. We would ask you to read through the whole text and then answer a few questions. We are keen to know what you think about the content and we understand that you will not remember all the details. If the world continues to release climate gasses at the current rate, climate changes in Norway would cause substantial increases in precipitation. Norsk Næringsliv (Norwegian Trade and Industry) wishes to exploit this opportunity in order to promote investments in the development of hydroelectric power and wind power. Norway could then export more oil and gas and thus strengthen the Norwegian economy. But the radical Grønn Verden (Green World) environmental organisation is promoting its industry-hostile agenda in an attempt to curb the oil industry. However, Norsk Næringsliv wishes to reveal the undue political pressure being exerted by the environmental lobby. They have emphasised that Norway would not have to impose harmful restrictions on individuals and trade and industry if more oil and gas was extracted. At the same time Norway could then fund reductions in foreign emissions and continue with its economic growth.

R4KM3b: Vignette 2

	If the world continues to release climate gasses at the current rate, climate changes in Norway would cause substantial increases in precipitation and dramatic rises in sea levels. People throughout the country would consequently be exposed to considerable risks and their lifestyle would suffer. Norsk Næringsliv wishes to combat climate change by using a quota trading system. This would allow companies to reduce their CO2 emissions by purchasing and selling climate quotas. However, the radical Grønn Verden environmental organisation is promoting its own destructive agenda. They are fighting to undermine free market forces. while Norsk Næringsliv wishes to reveal the undue political pressure being exerted by the environmental lobby. They have emphasised that climate quotas would remove the need for more controlled emissions which threaten growth. With the freedom to invest, Norwegian trade and industry could retain its economic growth and reduce CO2 emissions at the same time.

We would ask you to read through the whole text and then answer a few questions. We are keen to know what you think about the content and we understand that you will not remember all the details. If the world continues to release climate gasses at the current rate, climate changes in Norway would cause substantial increases in precipitation and dramatic rises in sea levels. People throughout the country would consequently be exposed to considerable risks and their lifestyle would suffer. The Grønn Verden environmental organisation wants to combat climate change by introducing a tax on the climate gas, CO2, in order to reduce emissions. But the for-profit trade and industry organisation, Norsk Næringsliv, is promoting its own greedy agenda. They are fighting constantly against solutions such as taxing CO2 emissions in order to enrich themselves, However, Grønn Verden wishes to reveal the undue political pressure being exerted by the petroleum lobby. They have emphasised that a CO2 tax would remove the financial benefits enjoyed by climate-hostile businesses. By using the extra income generated by such a tax, society could redistribute wealth more fairly and support investments in renewable energy.

Literal question	We are interested in knowing how people perceive and interpret texts about climate issues. Below you will find a text about this very subject. We would ask you to read through the whole text and then answer a few questions. We are keen to know what you think about the content and we understand that you will not remember all the details. The text contains the possible consequences of climate change which have been identified by climate research for Norway during this century if the world's climate gas emissions remain at current levels. Average precipitation will increase by 23%. Extreme precipitation will increase by up to 70%. The number of days with high precipitation will increase. The average air temperature will increase by 4.6 degrees. Winters will be 6 degrees warmer. The number of days with snow will be reduced by up to 3 months. There will be almost no snow along the coast and in low-lying areas. The sea level will increased by up to 50 cm in Oslo and by 80 cm in Bergen. The sea temperature in the North Sea and along the coast will increase by up to 2.5 degrees. The sea will become more acid (the pH level of the sea will drop) to a level which has not been seen during the last 20 million years. The Arctic will be ice-free during the summer.

r4km4g_1: Reaction to organization: Grønn Verden

Information	[Type= discrete] [Format=numeric] [Range= 1-99] [Missing=*]
Statistics [NW/ W]	[Valid=6297 /-] [Invalid=4345 /-]
Pre-question	Two organisations are mentioned in the text that you have just read. Please quantify your reaction to these organisations on a scale of zero (0) to , where zero means "highly negative" and 10 means ""highly positive".
Literal question	Grønn Verden
Interviewer's instructions	[Asked if U=2 and ran3=1]

Value	Label	Cases	Percentage
1	0 highly negative	27	0.4%
2	1	22	0.3%
3	2	42	0.7%
4	3	55	0.9%
5	4	59	0.9%
6	5	109	1.7%
7	6	69	1.1%
8	7	74	1.2%
9	8	44	0.7%
10	9	25	0.4%
11	10 highly positive	18	0.3%
97	No answer	243	3.9%
98	Not asked	5486	87.1%

r4km4g_1: Reaction to organization: Grønn Verden

Value	Label	Cases	Percentage
99	No answer	24	0.4%
Sysmiss		4345	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r4km4g_2: Reaction to organization: Norsk Næringsliv

Information	[Type= discrete] [Format=numeric] [Range= 1-99] [Missing=*]
Statistics [NW/ W]	[Valid=6297 /-] [Invalid=4345 /-]
Pre-question	Two organisations are mentioned in the text that you have just read. Please quantify your reaction to these organisations on a scale of zero (0) to , where zero means "highly negative" and 10 means ""highly positive".
Literal question	Norsk Næringsliv
Interviewer's instructions	[Asked if U=2 and ran3=1]

Value	Label	Cases	Percentage
1	0 highly negative	37	0.6%
2	1	35	0.6%

r4mobil_r4km6: [Tester om respondenten benytter en mobil enhet. Tester dersom U=2 og ran3=2]

Information	[Type= discrete] [Format=numeric] [Range= 0-1] [Missing=*]
Statistics [NW/ W]	[Valid=6297 /-] [Invalid=4345 /-]

Value	Label	Cases	Percentage
0	Non-mobile	630	10.0%
1	Mobile	162	2.6%
97		4	0.1%
98		5501	87.4%
Sysmiss		4345	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r4km6: Image experiment: Which of these images best illustrates your understanding of how the climate system works.

Information	[Type= discrete] [Format=numeric] [Range= 1-5] [Missing=*]
Statistics [NW/ W]	[Valid=6297 /-] [Invalid=4345 /-]
Literal question	People disagree about how the climate system works. The five images below illustrate five different perspectives. Each picture portrays the earth's climate system as being a ball balancing on a line, and each one has a different ability to withstand man-made climate changes. Which of these images best illustrates your understanding of how the climate system works.
Interviewer's instructions	[Asked if U=2 and ran3=2 & mobil_R4KM6 =0. Respondents are exposed to vizual stimulation. Respondents using mobile device are not exposed to the experiment. See appendix]

Value	Label	Cases	Percentage
1	Gradual - The earth's climate is changing slowly. Climate change will gradually result in dangerous consequences.	290	4.6%
2	Fragile - The climate on earth is delicately balanced. Small climate changes will gradually create sudden and disastrous consequences.	41	0.7%
3	Stable - The earth's climate is very stable. Climate change will result in minor or no consequences.	15	0.2%
4	Threshold - The earth's climate is stable within certain limits. If there are minor climate changes the climate will return to a stable balance. If there are major changes the consequences will be disastrous.	180	2.9%
5	Governed by chance - The earth's climate is governed by chance and unpredictable. We do not know what will happen.	87	1.4%
97	No answer	17	0.3%
98	Not asked	5667	90.0%
Sysmiss		4345	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r4km7: Where would you place your views about the relationship between humans and nature on this scale?

Information	[Type= discrete] [Format=numeric] [Range= 1-7] [Missing=*]
Statistics [NW/ W]	[Valid=6297 /-] [Invalid=4345 /-]
Literal question	Some people think that humans are at the centre of the whole organic system (nature). Others think that humans are just a small part of the organic system. These two views have been placed at either extreme of the scale below. Where would you place your views about the relationship between humans and nature on this scale?
Interviewer's instructions	[Asked if U=2]

Value	Label	Cases	Percentage
1	1 Humans are at the centre of the organic system	83	1.3%
2	2	149	2.4%
3	3	291	4.6%
4	4	363	5.8%
5	5	322	5.1%
6	6	170	2.7%
7	7 Humans are a small part of the organic system	195	3.1%
97	No answer	35	0.6%
98	Not asked	4689	74.5%
Sysmiss		4345	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r4km8_1: Statement: Humans are entitled to change their natural environment in order to satisfy their requirements .

Information	[Type= discrete] [Format=numeric] [Range= 1-7] [Missing=*]

r4km8_1: Statement: Humans are entitled to change their natural environment in order to satisfy their requirements .

Statistics [NW/ W]	[Valid=6297 /-] [Invalid=4345 /-]
Pre-question	Please look at the statements below. To what extent do you agree or disagree with them?
Literal question	Humans are entitled to change their natural environment in order to satisfy their requirements .
Interviewer's instructions	[Asked if U=2]

Value	Label	Cases	Percentage
1	Strongly agree	27	0.4%
2	Agree	54	0.9%
3	Agree somewhat	202	3.2%
4	Neither agree nor disagree	142	2.3%

Many experts believe that the measures mentioned below will work. However, there may be disagreement about whether or not these are good measures to implement. How positive or negative are you about the following measures:
Literal question	Strengthen focus on capture and storage of CO2 beneath the seabed or underground
Interviewer's instructions	[Asked if U=2 and ran22=4]

Value	Label	Cases	Percentage
1	Very negative	15	0.2%
2	Negative	24	0.4%
3	Somewhat negative	43	0.7%
4	Neither positive nor negative	179	2.8%
5	Somewhat positive	83	1.3%
6	Positive	51	0.8%
7	Very positive	18	0.3%
97	No answer	15	0.2%
98	Not asked	5869	93.2%
Sysmiss		4345	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r4km13d_3: Positive towards: Reduce the tax benefits which apply to oil exploration

Information	[Type= discrete] [Format=numeric] [Range= 1-7] [Missing=*]
Statistics [NW/ W]	[Valid=6297 /-] [Invalid=4345 /-]
Pre-question	We will now ask you about your opinion on a number of measures that have been proposed in order to reduce climate change. Many experts believe that the measures mentioned below will work. However, there may be disagreement about whether or not these are good measures to implement. How positive or negative are you about the following measures:
Literal question	Reduce the tax benefits which apply to oil exploration on the Norwegian Continental Shelf
Interviewer's instructions	[Asked if U=2 and ran22=4]

Value	Label	Cases	Percentage
1	Very negative	17	0.3%
2	Negative	34	0.5%
3	Somewhat negative	46	0.7%
4	Neither positive nor negative	152	2.4%
5	Somewhat positive	86	1.4%
6	Positive	51	0.8%
7	Very positive	29	0.5%
97	No answer	13	0.2%
98	Not asked	5869	93.2%
Sysmiss		4345	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r4km13d_4: Positive towards: Increase funding for research on, and the development of renewable energy

Information	[Type= discrete] [Format=numeric] [Range= 1-7] [Missing=*]
Statistics [NW/ W]	[Valid=6297 /-] [Invalid=4345 /-]
Pre-question	We will now ask you about your opinion on a number of measures that have been proposed in order to reduce climate change. Many experts believe that the measures mentioned below will work. However, there may be disagreement about whether or not these are good measures to implement. How positive or negative are you about the following measures:
Literal question	Increase funding for research on, and the development of renewable energy

r4km13d_4: Positive towards: Increase funding for research on, and the development of renewable energy

r4oc1: Should Norway play an active or reduced role in international politics?

Information	[Type= discrete] [Format=numeric] [Range= 1-2] [Missing=*]
Statistics [NW/ W]	[Valid=6297 /-] [Invalid=4345 /-]
Literal question	Do you think it is best for Norway in the future to play an active role in international politics, or should Norway preferably have a reduced role?
Interviewer's instructions	[Asked if U=3]

Value	Label	Cases	Percentage
1	Active role in international politics	1141	18.1%
2	Non-active role in international politics	386	6.1%
97	No answer	21	0.3%
98	Not asked	4749	75.4%
Sysmiss		4345	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r4oc25: Statement: Local news more interesting than national or international news

Information	[Type= discrete] [Format=numeric] [Range= 1-7] [Missing=*]
Statistics [NW/ W]	[Valid=6297 /-] [Invalid=4345 /-]
Literal question	To what extent do you agree or disagree with the following statements "I often feel that the news about what is taking place in my local area is more interesting than national and international news items."
Interviewer's instructions	[Asked if U=3]

Value	Label	Cases	Percentage
1	Strongly agree	47	0.7%
2	Agree	201	3.2%
3	Agree somewhat	341	5.4%
4	Neither agree nor disagree	290	4.6%
5	Disagree somewhat	238	3.8%
6	Disagree	321	5.1%
7	Strongly disagree	106	1.7%
97	No answer	4	0.1%
98	Not asked	4749	75.4%
Sysmiss		4345	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r4pad1: Attitude towards advertising on bus stops

Information	[Type= discrete] [Format=numeric] [Range= 1-2] [Missing=*]
Statistics [NW/ W]	[Valid=6297 /-] [Invalid=4345 /-]
Literal question	We will now be asking a variety of questions about politics, public services and the media.

r4pad1: Attitude towards advertising on bus stops

	Several Norwegian municipalities have in recent years entered into contracts with companies that provide and maintain bus shelters, city bicycles and public lavatories in return for the companies being allowed to advertise in connection with these. What is your opinion of this?
Interviewer's instructions	[Asked if U=3 and if the respondent is inhabitant in a defined group of municipalities.]

Value	Label	Cases	Percentage
1	I am opposed to municipal funding of bus shelters, city bicycles and public lavatories with the aid of advertising	221	3.5%
2	I support municipal funding of bus shelters, city bicycles and public lavatories with the aid of advertising	531	8.4%
97	No answer	13	0.2%
98	Not asked	5532	87.9%
Sysmiss		4345	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r4pad10_1: Proposal: The authorities propose merging the municipality in which you reside with one or more neighbouring municipalities

Information	[Type= discrete] [Format=numeric] [Range= 1-7] [Missing=*]
Statistics [NW/ W]	[Valid=6297 /-] [Invalid=4345 /-]
Pre-question	What is your opinion about the following two proposals?
Literal question	The authorities propose merging the municipality in which you reside with one or more neighbouring municipalities
Interviewer's instructions	[Asked if U=3]

Value	Label	Cases	Percentage
1	Very good suggestion	182	2.9%
2	Good suggestion	380	6.0%
3	Fairly good suggestion	301	4.8%
4	Neither good nor bad suggestion	247	3.9%
5	Not very good suggestion	147	2.3%
6	Bad suggestion	153	2.4%
7	Very bad suggestion	117	1.9%
97	No answer	21	0.3%
98	Not asked	4749	75.4%
Sysmiss		4345	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r4pad10_2: Proposal: Your municipality proposes providing more municipal services in cooperation with one or more neighbouring municipalities than it does at the moment.

Information	[Type= discrete] [Format=numeric] [Range= 1-7] [Missing=*]
Statistics [NW/ W]	[Valid=6297 /-] [Invalid=4345 /-]
Pre-question	What is your opinion about the following two proposals?
Literal question	Your municipality proposes providing more municipal services in cooperation with one or more neighbouring municipalities than it does at the moment.
Interviewer's instructions	[Asked if U=3]

Value	Label	Cases	Percentage
1	Very good suggestion	189	3.0%
2	Good suggestion	464	7.4%
3	Fairly good suggestion	379	6.0%
4	Neither good nor bad suggestion	228	3.6%

r4pad10_2: Proposal: Your municipality proposes providing more municipal services in cooperation with one or more neighbouring municipalities than it does at the moment.

Value	Label	Cases	Percentage
5	Not very good suggestion	126	2.0%
6	Bad suggestion	83	1.3%
7	Very bad suggestion	50	0.8%
97	No answer	29	0.5%
98	Not asked	4749	75.4%
Sysmiss		4345	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r4pad11: Willing to pay more in taxes to retain current municipal structure

Information	[Type= discrete] [Format=numeric] [Range= 1-3] [Missing=*]
Statistics [NW/ W]	[Valid=6297 /-] [Invalid=4345 /-]
Literal question	Some estimates suggest that the current municipal structure is costing society more. If you could choose, would you be willing to pay an extra NOK 1,000 in tax per year to maintain the current municipal structure?
Interviewer's instructions	[Asked if U=3]

Value	Label	Cases	Percentage
1	Yes	337	5.4%
2	No	824	13.1%
3	Don't know	375	6.0%
97	Ikke svart	12	0.2%
98	Ikke spurt	4749	75.4%
Sysmiss		4345	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r4pad12_1: Statement: Inter-municipal cooperation produces better services

Information	[Type= discrete] [Format=numeric] [Range= 1-7] [Missing=*]
Statistics [NW/ W]	[Valid=6297 /-] [Invalid=4345 /-]
Pre-question	To what extent do you agree or disagree with the following two statements?
Literal question	Cooperation between the municipalities on the supply of services (inter-municipal cooperation) gives better quality than if individual municipalities supply the services themselves.
Interviewer's instructions	[Asked if U=3]

Value	Label	Cases	Percentage
1	Totally agree	161	2.6%
2	Agree	395	6.3%
3	Agree somewhat	447	7.1%
4	Neither agree nor disagree	338	5.4%
5	Disagree somewhat	98	1.6%
6	Disagree	71	1.1%
7	Totally disagree	21	0.3%
97	No answer	17	0.3%
98	Not asked	4749	75.4%
Sysmiss		4345	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r4pad12_2: Statement: Inter-municipal cooperation makes it harder for voters to know who is responsible

Information	[Type= discrete] [Format=numeric] [Range= 1-7] [Missing=*]

r4pad12_2: Statement: Inter-municipal cooperation makes it harder for voters to know who is responsible

Statistics [NW/ W]	[Valid=6297 /-] [Invalid=4345 /-]
Pre-question	To what extent do you agree or disagree with the following two statements?
Literal question	Inter-municipal cooperation makes it harder for voters to know who is responsible for the contents of the policies that are implemented
Interviewer's instructions	[Asked if U=3]

Value	Label	Cases	Percentage
1	Totally agree	75	1.2%
2	Agree	221	3.5%
3	Agree somewhat	427	6.8%
4	Neither agree nor disagree	383	6.1%
5	Disagree somewhat	184	2.9%
6	Disagree	181	2.9%
7	Totally disagree	52	0.8%
97	No answer	25	0.4%
98	Not asked	4749	75.4%
Sysmiss		4345	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r4pad13: What do you think results in the best services for you and your municipality?

Information	[Type= discrete] [Format=numeric] [Range= 1-4] [Missing=*]
Statistics [NW/ W]	[Valid=6297 /-] [Invalid=4345 /-]
Literal question	What do you think results in the best services for you and your municipality?
Interviewer's instructions	[Asked if U=3]

Value	Label	Cases	Percentage
1	That my municipality provides the services itself	302	4.8%
2	That my municipality cooperates more with other municipalities	623	9.9%
3	That my municipality merges with other municipalities	406	6.4%
4	Don't know	205	3.3%
97	No answer	12	0.2%
98	Not asked	4749	75.4%
Sysmiss		4345	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r4pad14_1: Like or dislike party leaders: Erna Solberg (Cons.)

Information	[Type= discrete] [Format=numeric] [Range= 1-7] [Missing=*]
Statistics [NW/ W]	[Valid=6297 /-] [Invalid=4345 /-]
Pre-question	To what extent do you like or dislike the following party leaders?
Literal question	Erna Solberg (Cons.)
Interviewer's instructions	[Asked if U=3]

Value	Label	Cases	Percentage
1	Strongly dislike	82	1.3%
2	Significantly dislike	129	2.0%
3	Somewhat dislike	243	3.9%
4	Neither dislike nor like	263	4.2%
5	Somewhat like	410	6.5%

r4pad14_1: Like or dislike party leaders: Erna Solberg (Cons.)

Value	Label	Cases	Percentage
6	Significantly like	314	5.0%
7	Strongly like	85	1.3%
97	No answer	22	0.3%
98	Not asked	4749	75.4%
Sysmiss		4345	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r4pad14_2: Like or dislike party leaders: Jonas Gahr Støre (Lab.)

Information	[Type= discrete] [Format=numeric] [Range= 1-7] [Missing=*]
Statistics [NW/ W]	[Valid=6297 /-] [Invalid=4345 /-]
Pre-question	To what extent do you like or dislike the following party leaders?
Literal question	Jonas Gahr Støre (Lab.)
Interviewer's instructions	[Asked if U=3]

Value	Label	Cases	Percentage
1	Strongly dislike	42	0.7%
2	Significantly dislike	66	1.0%
3	Somewhat dislike	144	2.3%
4	Neither dislike nor like	282	4.5%
5	Somewhat like	399	6.3%
6	Significantly like	416	6.6%
7	Strongly like	173	2.7%
97	No answer	26	0.4%
98	Not asked	4749	75.4%
Sysmiss		4345	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r4pad14_3: Like or dislike party leaders: Siv Jensen (Progress Party)

Information	[Type= discrete] [Format=numeric] [Range= 1-7] [Missing=*]
Statistics [NW/ W]	[Valid=6297 /-] [Invalid=4345 /-]
Pre-question	To what extent do you like or dislike the following party leaders?
Literal question	Siv Jensen (Progress Party)
Interviewer's instructions	[Asked if U=3]

Value	Label	Cases	Percentage
1	Strongly dislike	383	6.1%
2	Significantly dislike	261	4.1%
3	Somewhat dislike	298	4.7%
4	Neither dislike nor like	230	3.7%
5	Somewhat like	221	3.5%
6	Significantly like	94	1.5%
7	Strongly like	36	0.6%
97	No answer	25	0.4%
98	Not asked	4749	75.4%
Sysmiss		4345	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r4pad15: Local election in the fall, tight race?

Information	[Type= discrete] [Format=numeric] [Range= 1-6] [Missing=*]
Statistics [NW/ W]	[Valid=6297 /-] [Invalid=4345 /-]
Literal question	As regards the local government elections this autumn, to what extent do you think that there will be close competition between the parties standing for election in respect of who will be elected to the Municipal Council where you live?
Interviewer's instructions	[Asked if U=3]

Value	Label	Cases	Percentage
1	Extremely close competition	93	1.5%
2	Very close competition	457	7.3%
3	Some competition	558	8.9%
4	Not much competition	166	2.6%
5	No competition at all	27	0.4%
6	Don't know	231	3.7%
97	No answer	16	0.3%
98	Not asked	4749	75.4%
Sysmiss		4345	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r4pad155_1: Local election in the fall, chosen a party yet?

Information	[Type= discrete] [Format=numeric] [Range= 0-99] [Missing=*]
Statistics [NW/ W]	[Valid=6297 /-] [Invalid=4345 /-]
Literal question	Some people have very definite ideas about which party they will vote for during the local government elections in the autumn. Others have not made a decision yet. To what extent are you sure about which party you will end up voting for?
Interviewer's instructions	[Asked if U=3]

Value	Label	Cases	Percentage
0	0 - I am very sure	405	6.4%
1	1	119	1.9%
2	2	157	2.5%
3	3	114	1.8%
4	4	77	1.2%
5	5	89	1.4%
6	6	68	1.1%
7	7	104	1.7%
8	8	120	1.9%
9	9	61	1.0%
10	10 - I am very unsure	127	2.0%
97	No answer	81	1.3%
98	Not asked	4749	75.4%
99	No answer	26	0.4%
Sysmiss		4345	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r4ran7: [Randomizes if U=3]

Information	[Type= discrete] [Format=numeric] [Range= 1-5] [Missing=*]
Statistics [NW/ W]	[Valid=1542 /-] [Invalid=9100 /-]

Value	Label	Cases	Percentage
1	1	307	19.9%

r4ran7: [Randomizes if U=3]

Value	Label	Cases	Percentage

å rutte med selv, eller å gi bort			
Det er jo snakk om pengepremie og med en liten datter og alt som medfører når hun skal bli voksen, utdannelse og komme inn på boligmarkedet osv, så sparer vi en del hver mnd og setter over alle penger vi får i gaver inn på sparekonto til hun. Så lenge vi har mulighet for det så er det noe vi har stort fokus på. Barna som vokser opp i dag og generelt i all tid så trenger de ikke penger når de er voksne og vi som foreldre går i graven. De trenger støtte etter å ha studert og påtatt seg masse studielån til egenkapital til bolig. Komme seg i jobb og komme seg inn på boligmarkedet. Slik det ofte er nå så kan det ta lang tid for mange å komme seg dit. Det er vårt fokus som foreldre.		1	0.1%
Det er mer		1	0.1%
Det er mer enn 1000, men spiller ingen rolle egentlig:)		1	0.1%
Det er mer fordelaktig for meg å få kr 1800 enn kr 1000		1	0.1%
Det er mer gøy å vinne jo større premien er		1	0.1%

Ingen opplysningar om kva eg eller andre evt måtte gi slipp på? Alt anna likt, vil eg foretrekke 1800 over 1000. Om det gjekk ut over noko anna, måtte eg vurdere....		1	0.1%
Ingen spesiell. Spiller ingen rolle.		1	0.1%
Ingen tilleggsopplysning rundt konsekvensene av valg av beløp ble oppgitt. Jeg valgte derfor det høyeste beløpet, ettersom det ikke fantes noe insentiv til å gjøre noe annet.		1	0.1%
Ja dette var jo en premie.		1	0.1%
Jeg ville vinne de største beløpet.		1	0.1%
Jeg er for tiden student og ønsker derfor høyeste mulige utbetaling.		1	0.1%
Jeg er ikke dum! Penger er penger enten de kommer fra undersøkelser eller lønnsslipper. Hva ville de bli brukt til om ikke jeg sa ja?		1	0.1%
Jeg er ikke en vinner av trekninger. Skulle jeg allikevel, for en gang skyld være så heldig, ja da vil jeg gjerne vinne kr.1800,-.		1	0.1%
Jeg er lærling, altså blakk. I tillegg er jeg usikker på hvor pengene fra Norsk Medborgerpanel		1	0.1%

r4pad23b: Text: Chose 1800 NOK over 1000 NOK

Value	Label	Cases	Percentage
kommer ifra, og i tillegg vet jeg ikke hvilken virkenytte disse undersøkelsene har.			
Jeg er pengegrisk.		1	0.1%
Jeg er pensjonist og har dårlig råd.		1	0.1%
Jeg er pensjonist og har ingen skattemessige ulemper ved å motta 1800 kr., derfor velger jeg selvsagt det høyeste beløpet.		1	0.1%
Jeg er student på andre året, og lever fra mnd til mnd. Det er ingenting å gå på, og kunne jeg velge ville jeg mer enn gjerne valgt 1800kr heller enn 1000kr.		1	0.1%
Jeg er student uten inntekt, bare studielån. Tror ikke 800kr ekstra i utgift vil skade økonomien til Norsk Medborgerpanel (UiB) noe særlig.		1	0.1%
Jeg er student, og da kommer litt ekstra penger alltid godt med.		1	0.1%
Jeg er ung og selvstendig næringsdrivende, jeg sier ja til alt. Dessuten så bruker dere jo selv penger som gulrot og gir det en verdi over det å hjelpe dere i undersøkelsene deres, gitt det premisset, så da er det vel åpenbart at 1800>1000.		1	0.1%
Jeg fant ingen gode argumenter for å velge		1	0.1%

r4pad23b: Text: Chose 1800 NOK over 1000 NOK

Value	Label	Cases	Percentage
en lavere pengesum. Om den mest asketiske deltageren skulle være den vinnende deltageren får det være så, jeg har større behov for 1800 kroner enn 1000 kroner.			
Jeg fikk ikke informasjon om hvor de andre 800kr ble av. Da vil jeg heller ha de selv og gi de til kreftforeningen/ røde kors el.		1	0.1%
Jeg gikk for det høyeste beløpet fordi jeg har dårlig råd, og trenger pengene.		1	0.1%
Jeg har bruk for pengene!		1	0.1%
Jeg har veldig dårlig råd for tiden. 800 kr er 1 uke med mat.		1	0.1%
Jeg kan få mer ut av 1800 kr enn 1000. Jeg kan feks støtte en god sak.		1	0.1%
Jeg kan gjøre mer godt med 1800 enn 1000 kr.		1	0.1%
Jeg kan matematikk, 1800 er mer enn 1000. Dersom det hadde stått noe om vinnersjansene ville det også påvirket.		1	0.1%
Jeg kjenner mange som trenger litt ekstra -		1	0.1%
Jeg måtte velge ett av beløpene - kunne ikke takke nei. Mellomlegget mellom 1000 og 1800 kan likegodt gis		1	0.1%

r4pad23b: Text: Chose 1800 NOK over 1000 NOK

Value	Label	Cases	Percentage
til en veldedig organisasjon.			
Jeg oppga 1800kr pga det ikke sto noe om grunnlaget for å motta enten den ene eller andre summen. Hadde det stått f.eks. at hvis du mottar 1000kr går resten til en god sak, da hadde jeg valgt å motta 1000kr. Her forelå det ingen incentiver av noe slag og dermed ble største sum valgt.		1	0.1%
Jeg priser min tid høyt		1	0.1%
Jeg ser ingen grunn til at jeg ikke skal få mer penger dersom det er mulig. Medborgerpanelet oppfatter jeg ikke som en veldedig organsiasjon el.l. som jeg ser noen grunn til å støtte økonomisk		1	0.1%
Jeg skal ha konfirmasjon for min datter i Mai og hver krone hjelper :)		1	0.1%
Jeg synes absolutt jer har gjort meg fortjent til det ved å være villig til å delta i norsk medborgerpanel!		1	0.1%
Jeg synes det var et dumt spørsmål, og lurte på om det ble stilt for å spille på min samvittighet.		1	0.1%
Jeg takket ja til det høyeste beløpet!		1	0.1%
Jeg tar det som er best for meg! 1800 kr. er bedre enn 1000 kroner.		1	0.1%

r4dv45c_2: Unsertain about cause of illness: Unhealthy patients must pay more in fees

Information	[Type= discrete] [Format=numeric] [Range= 1-7] [Missing=*]
Statistics [NW/ W]	[Valid=6297 /-] [Invalid=4345 /-]
Pre-question	We now have a few questions about health which we would like you to consider. There is often considerable uncertainty about the determination of whether or not a patient's lifestyle is actually the cause of their state of health. The extent to which the patient concerned is able to avoid his/her unhealthy lifestyle is also often unclear. To what extent do you agree or disagree with the following statements:
Literal question	It is fair that a patient with an unhealthy lifestyle should contribute more towards treatment than a patient with a healthy lifestyle
Interviewer's instructions	[Asked if U=4 and ran17=3]

Value	Label	Cases	Percentage
1	Strongly agree	7	0.1%
2	Agree	21	0.3%
3	Agree somewhat	64	1.0%
4	Neither agree nor disagree	67	1.1%
5	Disagree somewhat	73	1.2%
6	Disagree	175	2.8%
7	Strongly disagree	121	1.9%
97	No answer	3	0.0%
98	Not asked	5766	91.6%
Sysmiss		4345	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r4dv45c_3: Unsertain about cause of illness: Taxes on booze and cigarettes

Information	[Type= discrete] [Format=numeric] [Range= 1-7] [Missing=*]
Statistics [NW/ W]	[Valid=6297 /-] [Invalid=4345 /-]
Pre-question	We now have a few questions about health which we would like you to consider. There is often considerable uncertainty about the determination of whether or not a patient's lifestyle is actually the cause of their state of health. The extent to which the patient concerned is able to avoid his/her unhealthy lifestyle is also often unclear. To what extent do you agree or disagree with the following statements:
Literal question	The consumption of some products, e.g. alcohol and tobacco, increases the risk of disease and thus also overall health expenditure. It is therefore fair that such products should be taxed in order to fund the costs incurred in respect of increases in such risky behaviour
Interviewer's instructions	[Asked if U=4 and ran17=3]

Value	Label	Cases	Percentage
1	Strongly agree	92	1.5%

Sysmiss		4345	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r4oc23_4: Statement: People suffering from depression are dangerous

Information	[Type= discrete] [Format=numeric] [Range= 1-5] [Missing=*]
Statistics [NW/ W]	[Valid=6297 /-] [Invalid=4345 /-]
Pre-question	To what extent do you agree with the following statements?
Literal question	People suffering from depression are dangerous
Interviewer's instructions	[Asked if U=2]

Value	Label	Cases	Percentage
1	1 - Very true	21	0.3%
2	2	71	1.1%
3	3	223	3.5%
4	4	431	6.8%
5	5 - Completely untrue	816	13.0%
97	No answer	46	0.7%
98	Not asked	4689	74.5%
Sysmiss		4345	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r4oc23_5: Statement: It is best to avoid people who are suffering from depression

Information	[Type= discrete] [Format=numeric] [Range= 1-5] [Missing=*]
Statistics [NW/ W]	[Valid=6297 /-] [Invalid=4345 /-]
Pre-question	To what extent do you agree with the following statements?
Literal question	It is best to avoid people who are suffering from depression in order to prevent oneself from becoming depressed too
Interviewer's instructions	[Asked if U=2]

Value	Label	Cases	Percentage
1	1 - Very true	9	0.1%
2	2	44	0.7%
3	3	114	1.8%
4	4	362	5.7%
5	5 - Completely untrue	1037	16.5%
97	No answer	42	0.7%
98	Not asked	4689	74.5%
Sysmiss		4345	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r4oc23_6: Statement: People suffering from depression are unpredictable

Information	[Type= discrete] [Format=numeric] [Range= 1-5] [Missing=*]
Statistics [NW/ W]	[Valid=6297 /-] [Invalid=4345 /-]
Pre-question	To what extent do you agree with the following statements?
Literal question	People suffering from depression are unpredictable
Interviewer's instructions	[Asked if U=2]

Value	Label	Cases	Percentage
1	1 - Very true	30	0.5%
2	2	197	3.1%
3	3	423	6.7%
4	4	520	8.3%
5	5 - Completely untrue	390	6.2%
97	No answer	48	0.8%
98	Not asked	4689	74.5%
Sysmiss		4345	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r4oc23_7: Statement: If I was suffering from depression I would not tell anyone

Information	[Type= discrete] [Format=numeric] [Range= 1-5] [Missing=*]
Statistics [NW/ W]	[Valid=6297 /-] [Invalid=4345 /-]
Pre-question	To what extent do you agree with the following statements?
Literal question	If I was suffering from depression I would not tell anyone
Interviewer's instructions	[Asked if U=2]

Value	Label	Cases	Percentage
1	1 - Very true	66	1.0%
2	2	251	4.0%
3	3	327	5.2%
4	4	442	7.0%
5	5 - Completely untrue	476	7.6%

r4oc23_7: Statement: If I was suffering from depression I would not tell anyone

r4k41: Attending religious meetings

Information	[Type= discrete] [Format=numeric] [Range= 1-7] [Missing=*]
Statistics [NW/ W]	[Valid=6155 /-] [Invalid=4487 /-]
Literal question	Apart from special occasions such as weddings and funerals, how often would you say that you attend religions meetings at the moment?

Value	Label	Cases	Percentage
1	Daily	13	0.2%
2	More than once a week	96	1.6%
3	Once a week	192	3.1%
4	At least once a month	302	4.9%
5	Only at special festivals	1308	21.3%
6	Less often	1513	24.6%
7	Never	2731	44.4%
97	No answer	0	
Sysmiss		4487	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r4k42: Living with children under 16 years

Information	[Type= discrete] [Format=numeric] [Range= 1-7] [Missing=*]
Statistics [NW/ W]	[Valid=6126 /-] [Invalid=4516 /-]
Literal question	Do you have any children under the age of 16 who live at home with you, and if so, how many?

Value	Label	Cases	Percentage
1	None	4542	74.1%
2	1	672	11.0%
3	2	679	11.1%
4	3	205	3.3%
5	4	25	0.4%
6	5	1	0.0%
7	6 or more	2	0.0%
97	No answer	0

Statistics [NW/ W]	[Valid=5451 /-] [Invalid=5191 /-]

r5dt16_9: Placement on political scale: The Red Party

Pre-question	In politics people sometimes talk about the left wing and the right wing. Where would you place the following parties on a scale where 0 represents furthest to the left and 10 represents furthest to the right?
Literal question	The Red Party
Interviewer's instructions	[Asked if u=0]

Value	Label	Cases	Percentage
1	0 Left	3123	57.3%
2	1	1029	18.9%
3	2	339	6.2%
4	3	172	3.2%
5	4	110	2.0%
6	5	215	3.9%
7	6	46	0.8%
8	7	43	0.8%
9	8	22	0.4%
10	9	26	0.5%
11	10 Right	27	0.5%
97	No answer	299	5.5%
Sysmiss		5191	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r5dv30_1: Statement: The tax burden should be lowered

Information	[Type= discrete] [Format=numeric] [Range= 1-7] [Missing=*]
Statistics [NW/ W]	[Valid=5451 /-] [Invalid=5191 /-]
Pre-question	How much do you agree or disagree with the following statements:
Literal question	The tax burden should be reduced, even if it leads to cutbacks in the welfare state.
Interviewer's instructions	[Asked if u=0]

Value	Label	Cases	Percentage
1	Strongly agree	153	2.8%
2	Agree	287	5.3%
3	Agree somewhat	701	12.9%
4	Neither agree nor disagree	604	11.1%
5	Disagree somewhat	978	17.9%
6	Disagree	1428	26.2%
7	Strongly disagree	1255	23.0%
97	No answer	45	0.8%
Sysmiss		5191	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r5dv30_2: Statement: Commercial private schools should be allowed

Information	[Type= discrete] [Format=numeric] [Range= 1-7] [Missing=*]
Statistics [NW/ W]	[Valid=5451 /-] [Invalid=5191 /-]
Pre-question	How much do you agree or disagree with the following statements:
Literal question	Commercial private schools should be allowed.
Interviewer's instructions	[Asked if u=0]

r5dv30_2: Statement: Commercial private schools should be allowed

Value	Label	Cases	Percentage
1	Strongly agree	323	5.9%
2	Agree	840	15.4%
3	Agree somewhat	1030	18.9%
4	Neither agree nor disagree	650	11.9%
5	Disagree somewhat	839	15.4%
6	Disagree	863	15.8%

Information	[Type= continuous] [Format=numeric] [Range= 1-1] [Missing=*]
Statistics [NW/ W]	[Valid=5451 /-] [Invalid=5191 /-]
Pre-question	During the last 12 months have you carried out voluntary, unpaid work for voluntary organisations in any of the following areas:

r5fr1_10: Volunteering: Rights, support and advocacy work

Literal question	Rights, support and advocacy work [Disabled and ill. Women's rights. Language societies. Ethnic minorities. Weak/exposed groups, prisoners, the poor. Campaigns and lobbying]
Interviewer's instructions	[Asked if u=1]

Value	Label	Cases	Percentage
1	Rights, support and advocacy work [Disabled and ill. Women's rights. Language societies. Ethnic minorities. Weak/exposed groups, prisoners, the poor. Campaigns and lobbying]	44	1.1%
97	No answer	6	0.1%
98	Not asked	4126	98.8%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r5fr1_11: Volunteering: Political parties

Information	[Type= continuous] [Format=numeric] [Range= 1-1] [Missing=*]
Statistics [NW/ W]	[Valid=5451 /-] [Invalid=5191 /-]
Pre-question	During the last 12 months have you carried out voluntary, unpaid work for voluntary organisations in any of the following areas:
Literal question	Political parties [Youth political parties]
Interviewer's instructions	[Asked if u=1]

Value	Label	Cases	Percentage
1	Political parties [Youth political parties]	40	1.0%
97	No answer	6	0.1%
98	Not asked	4126	98.9%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r5fr1_12: Volunteering: International exchange, emergency help, assistance and human rights work

Information	[Type= continuous] [Format=numeric] [Range= 1-1] [Missing=*]
Statistics [NW/ W]	[Valid=5451 /-] [Invalid=5191 /-]
Pre-question	During the last 12 months have you carried out voluntary, unpaid work for voluntary organisations in any of the following areas:
Literal question	International exchange, emergency help, assistance and human rights work [International friendship and exchange programmes. International relief and development assistance. Human rights and peace work]
Interviewer's instructions	[Asked if u=1]

Value	Label	Cases	Percentage
1	International exchange, emergency help, assistance and human rights work [International friendship and exchange programmes. International relief and development assistance. Human rights and peace work]	54	1.3%
97	No answer	6	0.1%
98	Not asked	4126	98.6%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r5fr1_13: Volunteering: Vocational, industry and trade unions and associations

Information	[Type= continuous] [Format=numeric] [Range= 1-1] [Missing=*]
Statistics [NW/ W]	[Valid=5451 /-] [Invalid=5191 /-]
Pre-question	During the last 12 months have you carried out voluntary, unpaid work for voluntary organisations in any of the following areas:
Literal question	Vocational, industry and trade unions and associations [Employee organisations. Employer organisations. Trade and industry associations. Producers co-operatives. Pupil and student organisations.]
Interviewer's instructions	[Asked if u=1]

r5fr1_13: Volunteering: Vocational, industry and trade unions and associations

Value	Label	Cases	Percentage
1	Vocational, industry and trade unions and associations [Employee organisations. Employer organisations. Trade and industry associations. Producers co-operatives. Pupil and student organisations.]	101	2.4%
97	No answer	6	0.1%
98	Not asked	4126	97.5%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r5fr1_14: Volunteering: Religion and beliefs including the Church of Norway

Information	[Type= continuous] [Format=numeric] [Range= 1-1] [Missing=*]
Statistics [NW/ W]	[Valid=5451 /-] [Invalid=5191 /-]
Pre-question	During the last 12 months have you carried out voluntary, unpaid work for voluntary organisations in any of the following areas:
Literal question	Religion and beliefs including the Church of Norway [Organisations linked to the Church of Norway. Mission. Protestant free church. Other religions. Belief organisations, also non-religious such as the Norwegian Humanist Association] (14)
Interviewer's instructions	[Asked if u=1]

Value	Label	Cases	Percentage
1	Religion and beliefs including the Church of Norway [Organisations linked to the Church of Norway. Mission. Protestant free church. Other religions. Belief organisations, also non-religious such as the Norwegian Humanist Association]	103	2.4%
97	No answer	6	0.1%
98	Not asked	4126	97.4%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r5fr1_15: Volunteering: Immigrant organisations

Information	[Type= continuous] [Format=numeric] [Range= 1-1] [Missing=*]
Statistics [NW/ W]	[Valid=5451 /-] [Invalid=5191 /-]
Pre-question	During the last 12 months have you carried out voluntary, unpaid work for voluntary organisations in any of the following areas:
Literal question	Immigrant organisations [Organisations linked to country background, culture, identity outside Norway]
Interviewer's instructions	[Asked if u=1]

Value	Label	Cases	Percentage
1	Immigrant organisations [Organisations linked to country background, culture, identity outside Norway]	10	0.2%
97	No answer	6	0.1%
98	Not asked	4126	99.6%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r5fr1_16: Volunteering: Other, specify

Information	[Type= continuous] [Format=numeric] [Range= 1-1] [Missing=*]
Statistics [NW/ W]	[Valid=5451 /-] [Invalid=5191 /-]
Pre-question	During the last 12 months have you carried out voluntary, unpaid work for voluntary organisations in any of the following areas:
Literal question	Other, specify
Interviewer's instructions	[Asked if u=1]

Value	Label	Cases	Percentage
1	Other, specify	35	0.8%

r5fr1_16: Volunteering: Other, specify

Value	Label	Cases	Percentage
97	No answer	6	0.1%
98	Not asked	4126	99.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r5fr1_17: No, not volunteering

Information	[Type= continuous] [Format=numeric] [Range= 1-1] [Missing=*]
Statistics [NW/ W]	[Valid=0 /-] [Invalid=10642 /-]
Pre-question	During the last 12 months have you carried out voluntary, unpaid work for voluntary organisations in any of the following areas:
Literal question	No
Interviewer's instructions	[Asked if u=1]

Value	Label	Cases	Percentage
1	No		
97	No answer		
98	Not asked		

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r5fr1_16_other: Volunteering: Other, specify [anonymized]

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=5451 /-] [Invalid=0 /-]
Pre-question	During the last 12 months have you carried out voluntary, unpaid work for voluntary organisations in any of the following areas:
Literal question	Other, specify
Interviewer's instructions	[Asked if u=1] [Data withheld for the sake of anonymity]

Value	Label	Cases	Percentage
0		897	16.5%
1		422	7.7%
9		4132	75.8%
97	No answer	0	
98	Not asked	0	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r5utfortfrivilligarbeid: Done voluntary work?

Information	[Type= discrete] [Format=numeric] [Range= 0-1] [Missing=*]
Statistics [NW/ W]	[Valid=5451 /-] [Invalid=5191 /-]
Interviewer's instructions	[Asked if u=1. Selects respondents who has answered positively on one or more categories in R5FR1]

Value	Label	Cases	Percentage
0	No	465	8.5%
1	Yes	854	15.7%
97	No answer	6	0.1%
98	Not asked	4126	75.7%
Sysmiss		5191	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r5flereorg: Done voluntary work for more then one organization?

Information	[Type= discrete] [Format=numeric] [Range= 0-1] [Missing=*]
Statistics [NW/ W]	[Valid=5451 /-] [Invalid=5191 /-]
Interviewer's instructions	[Asked if u=1. Selects respondents who has answered positively on more than one category in R5FR1]

Value	Label	Cases	Percentage
0	No	810	14.9%
1	Yes	509	9.3%
97	No answer	6	0.1%
98	Not asked	4126	75.7%
Sysmiss		5191	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r5fr17: How much time spent volunteering

Information	[Type= discrete] [Format=numeric] [Range= 1-2] [Missing=*]
Statistics [NW/ W]	[Valid=5451 /-] [Invalid=5191 /-]
Literal question	If you think about the last four weeks, roughly how much time did you spend on voluntary work?
Interviewer's instructions	[Asked if u=1 and utfortFrivilligArbeid=1]

Value	Label	Cases	Percentage
1	Note the number of hours	560	10.3%
2	Have not done any voluntary work in the last four weeks	286	5.2%
97	No answer	8	0.1%
98	Not asked	4597	84.3%
Sysmiss		5191	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r5fr17_1_other: How much time spent volunteering, hours

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=554 /-] [Invalid=0 /-]
Literal question	If you think about the last four weeks, roughly how much time did you spend on voluntary work?
Interviewer's instructions	[Asked if u=1 and utfortFrivilligArbeid=1]

Value	Label	Cases	Percentage
0		8	1.4%

Information	[Type= discrete] [Format=numeric] [Range= 1-7] [Missing=*]
Statistics [NW/ W]	[Valid=5451 /-] [Invalid=5191 /-]
Pre-question	Imagine that the Norwegian Police Security Service (PST) has asked for permission to listen to the telephone calls of members or sympathisers of an extreme right wing group because they believe this will help them in investigating a terrorist case. Some people believe PST should be allowed to do so because they can prevent a terrorist plot at an early stage, others believe they should not be allowed because this would be too much of an intrusion into the private lives of the group.
Literal question	To what extent do you agree or disagree that the Norwegian Police Security Service should be allowed to listen to telephone calls in this way?
Interviewer's instructions	[Asked if u=2 and ran24=3]

Value	Label	Cases	Percentage
1	Strongly agree	93	1.7%
2	Agree	104	1.9%
3	Agree somewhat	56	1.0%
4	Neither agree nor disagree	11	0.2%
5	Disagree somewhat	12	0.2%

r5km2a_1: Statement, only own municipality: The wind turbines will have negative effects locally

Information	[Type= discrete] [Format=numeric] [Range= 1-4] [Missing=*]
Statistics [NW/ W]	[Valid=5451 /-] [Invalid=5191 /-]
Pre-question	The government is considering giving permission for more new wind turbines, so as to increase production of renewable energy in Norway. However such wind turbines can be controversial, because they can be intrusive in the natural surroundings and cause irritating noise for people who live close by. Let us say that the county council proposes to build new wind turbines in the county in which you live and that this will only occur in the municipality that you live in. To what extent do you agree or disagree with the statements below?
Literal question	The wind turbines will have negative effects locally
Interviewer's instructions	[Asked if u=2 OR u=3 and the respondent does not live in Oslo and ran25=1]

Value	Label	Cases	Percentage
1	Strongly disagree	77	1.4%
2	Slightly disagree	186	3.4%
3	Slightly agree	232	4.3%

r5km2a_1: Statement, only own municipality: The wind turbines will have negative effects locally

Value	Label	Cases	Percentage
4	Strongly agree	62	1.1%
97	No answer	1142	21.0%
98	Not asked	3752	68.8%
Sysmiss		5191	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r5km2a_2: Statement, only own municipality: The wind turbines will make the energy supply more sustainable

Information	[Type= discrete] [Format=numeric] [Range= 1-4] [Missing=*]
Statistics [NW/ W]	[Valid=5451 /-] [Invalid=5191 /-]

r5km2d_2: Statement, own and other municipality, compensation: The wind turbines will make the energy supply more sustainable

Information	[Type= discrete] [Format=numeric] [Range= 1-4] [Missing=*]
Statistics [NW/ W]	[Valid=5451 /-] [Invalid=5191 /-]
Pre-question	The government is considering giving permission for more new wind turbines, so as to increase production of renewable energy in Norway. However such wind turbines can be controversial, because they can be intrusive in the natural surroundings and cause irritating noise for people who live close by.

r5km2d_2: Statement, own and other municipality, compensation: The wind turbines will make the energy supply more sustainable

	Let us say that the county council proposes to build new wind turbines in the county in which you live and that this will only occur in the municipality that you live in. The government will also offer money to residents to compensate for the negative effects of the new wind turbines. To what extent do you agree or disagree with the statements below?
Literal question	The wind turbines will make the energy supply more sustainable
Interviewer's instructions	[Asked if u=2 OR u=3 and the respondent does not live in Oslo and ran25=4]

Value	Label	Cases	Percentage
1	Strongly disagree	33	0.6%
2	Slightly disagree	74	1.4%
3	Slightly agree	286	5.2%
4	Strongly agree	158	2.9%
97	No answer	1151	21.1%
98	Not asked	3749	68.8%
Sysmiss		5191	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r5km2d_3: Statement, own and other municipality, compensation: The proposal is reasonable

Information	[Type= discrete] [Format=numeric] [Range= 1-4] [Missing=*]
Statistics [NW/ W]	[Valid=5451 /-] [Invalid=5191 /-]

3	3	442	31.4%
Sysmiss		9234	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r5oc6: Mauritius: Difficult economic conditions mean that people can be compared to very sick or paralyzed patients

Information	[Type= discrete] [Format=numeric] [Range= 1-5] [Missing=*]
Statistics [NW/ W]	[Valid=5451 /-] [Invalid=5191 /-]
Pre-question	Foreign aid is money that the Norwegian government sends to people in poor countries to help them fight poverty. A lot of the aid money that the Norway sends overseas goes to less developed countries like Mauritius [and poor Mauritian families like the one pictured above.] The families often receive the aid as particular goods and services, such as school materials or doctors visits. Please answer the following questions. Don't worry if you've never heard of Mauritius or don't know much about it. Just give your best answers. For the first three questions, 1 means you agree completely with the statement on the left; 5 means you agree completely with the statement on the right. If your views fall somewhere in between, you can choose any number in between.
Literal question	Because of difficult economic circumstances, people in Mauritius are like extremely sick or paralyzed patients. They ARE COMPLETELY UNABLE to help themselves / Despite difficult economic circumstances, individuals in Mauritius ARE ABLE to do things that can help themselves get richer
Interviewer's instructions	[Asked if u=2. Note: If ran5=1 Or 2=Respondents was exposed to vizual stimulation, if ran5=3 respondents was not exposed to vizual stimulation See appendix.]

Value	Label	Cases	Percentage
1	1 Because of difficult economic circumstances, people in Mauritius are like extremely sick or paralyzed patients. They ARE COMPLETELY UNABLE to help themselves	19	0.3%
2	2	95	1.7%
3	3	417	7.6%
4	4	367	6.7%
5	5 Despite difficult economic circumstances, individuals in Mauritius ARE ABLE to do things that can help themselves get richer	467	8.6%
97	No answer	66	1.2%
98	Not asked	4020	73.7%
Sysmiss		5191	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r5oc7: Mauritius: Regarding welfare, the individuals are victims of circumstances beyond their control

Information	[Type= discrete] [Format=numeric] [Range= 1-5] [Missing=*]
Statistics [NW/ W]	[Valid=5451 /-] [Invalid=5191 /-]
Pre-question	Foreign aid is money that the Norwegian government sends to people in poor countries to help them fight poverty. r5pad13a_1: Joint contribution: The person in the group who puts in the least is excluded from the group and loses his or her 1,000 kroner

Information	[Type= discrete] [Format=numeric] [Range= 0-10] [Missing=*]
Statistics [NW/ W]	[Valid=5451 /-] [Invalid=5191 /-]
Pre-question	Three participants in the Norwegian Citizen Panel are drawn to win an extra cash prize. These three are put together in a group. Every person in the group receives 1,000 kroner to begin with. The final amount of the cash prize depends on what choices the people in the group make in the decisions below. Each participant is to choose how much of his or her 1,000 kroner will be put into a joint kitty for the group. The person in the group who puts in the least is excluded from the group and loses his or her 1,000 kroner. The two remaining people's contribution to the kitty is increased by 50 per cent and then divided equally between the two. The final cash prize is each individual's portion of the kitty and the money that was kept.
Literal question	If you were drawn out to win 1,000 kroner, how much would you put into the joint kitty?

r6fri42_1: Statement: Volunteers provide something different from what professionals offer

Information	[Type= discrete] [Format=numeric] [Range= 1-5] [Missing=*]
Statistics [NW/ W]	[Valid=4859 /-] [Invalid=5783 /-]
Pre-question	There are some statements below about organised voluntary work. To what extent do you agree or disagree with these statements?
Literal question	Volunteers provide something different from what professionals offer, such as a different type of commitment or experience of life
Interviewer's instructions	[Asked if u=1]

Value	Label	Cases	Percentage
1	Strongly disagree	15	0.3%
2	Disagree	31	0.6%
3	Agree	595	12.2%
4	Strongly agree	461	9.5%
5	Don't know	67	1.4%
97	No answer	21	0.4%
98	Not asked	3669	75.5%
Sysmiss		5783	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r6fri42_2: Statement: Would be no need for voluntary work if the public sector took full responsibility

Information	[Type= discrete] [Format=numeric] [Range= 1-5] [Missing=*]
Statistics [NW/ W]	[Valid=4859 /-] [Invalid=5783 /-]
Pre-question	There are some statements below about organised voluntary work. To what extent do you agree or disagree with these statements?
Literal question	If the public sector took full responsibility, there would be no need for voluntary work
Interviewer's instructions	[Asked if u=1]

Value	Label	Cases	Percentage
1	Strongly disagree	350	7.2%

r6fri42_2: Statement: Would be no need for voluntary work if the public sector took full responsibility

Value	Label	Cases	Percentage
2	Disagree	663	13.6%
3	Agree	71	1.5%
4	Strongly agree	32	0.7%
5	Don't know	54	1.1%
97	No answer	20	0.4%
98	Not asked	3669	75.5%
Sysmiss		5783	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r6fri42_3: Statement: Moral responsibility to do voluntary work during your life

Information	[Type= discrete] [Format=numeric] [Range= 1-5] [Missing=*]
Statistics [NW/ W]	[Valid=4859 /-] [Invalid=5783 /-]
Pre-question	There are some statements below about organised voluntary work. To what extent do you agree or disagree with these statements?
Literal question	Doing voluntary work during your life is a moral responsibility that everyone has
Interviewer's instructions	[Asked if u=1]

Value	Label	Cases	Percentage
1	Strongly disagree	49	1.0%
2	Disagree	184	3.8%
3	Agree	511	10.5%
4	Strongly agree	329	6.8%
5	Don't know	96	2.0%
97	No answer	21	0.4%
98	Not asked	3669	75.5%
Sysmiss		5783	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r6fri42_4: Statement: Voluntary work a threat to paid work

Information	[Type= discrete] [Format=numeric] [Range= 1-5] [Missing=*]
Statistics [NW/ W]	[Valid=4859 /-] [Invalid=5783 /-]
Pre-question	There are some statements below about organised voluntary work. To what extent do you agree or disagree with these statements?
Literal question	Voluntary work is a threat to paid work and is used so as to be able to cut society's expenses
Interviewer's instructions	[Asked if u=1]

Value	Label	Cases	Percentage
1	Strongly disagree	521	10.7%
2	Disagree	539	11.1%
3	Agree	39	0.8%
4	Strongly agree	25	0.5%
5	Don't know	44	0.9%
97	No answer	22	0.5%
98	Not asked	3669	75.5%
Sysmiss		5783	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r6fri42_5: Statement: Voluntary work helps people to have an active role in a democratic society

Information	[Type= discrete] [Format=numeric] [Range= 1-5] [Missing=*]
Statistics [NW/ W]	[Valid=4859 /-] [Invalid=5783 /-]
Pre-question	There are some statements below about organised voluntary work. To what extent do you agree or disagree with these statements?
Literal question	Voluntary work helps people to have an active role in a democratic society
Interviewer's instructions	[Asked if u=1]

Value	Label	Cases	Percentage

97	No answer	38	0.8%

r6friva_6: Statement: My involvement is not appreciated

Value	Label	Cases	Percentage
98	Not asked	4278	88.0%
Sysmiss		5783	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r6friiv1_1: Contribution to the refugee situation: Donation

Information	[Type= discrete] [Format=numeric] [Range= 1-1] [Missing=*]
Statistics [NW/ W]	[Valid=4859 /-] [Invalid=5783 /-]
Pre-question	Many refugees and asylum seekers have come to Norway in the course of the last year. During the last 12 months, have you made any of the following contributions in connection with the refugee situation? More than one answer possible
Literal question	Donation (e.g. money/clothing/equipment)
Interviewer's instructions	[Asked if u=1]

Value	Label	Cases	Percentage
0		767	15.8%
1	Donation (e.g. money/clothing/equipment)	411	8.5%
97	No answer	12	0.2%
98	Not asked	3669	75.5%
Sysmiss		5783	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r6friiv1_2: Contribution to the refugee situation: Physical contribution

Information	[Type= discrete] [Format=numeric] [Range= 1-1] [Missing=*]
Statistics [NW/ W]	[Valid=4859 /-] [Invalid=5783 /-]
Pre-question	Many refugees and asylum seekers have come to Norway in the course of the last year. During the last 12 months, have you made any of the following contributions in connection with the refugee situation? More than one answer possible
Literal question	Physical contribution (e.g. given out food/clothing/equipment directly to refugees)
Interviewer's instructions	[Asked if u=1]

Value	Label	Cases	Percentage
0		1141	23.5%
1	Physical contribution (e.g. given out food/clothing/equipment directly to refugees)	37	0.8%
97	No answer	12	0.2%
98	Not asked	3669	75.5%
Sysmiss		5783	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r6friiv1_3: Contribution to the refugee situation: Administrative contribution

Information	[Type= discrete] [Format=numeric] [Range= 1-1] [Missing=*]
Statistics [NW/ W]	[Valid=4859 /-] [Invalid=5783 /-]
Pre-question	Many refugees and asylum seekers have come to Norway in the course of the last year. During the last 12 months, have you made any of the following contributions in connection with the refugee situation? More than one answer possible
Literal question	Administrative contribution (e.g. coordinated action/information work)
Interviewer's instructions	[Asked if u=1]

Value	Label	Cases	Percentage
0		1148	23.6%

r6friiv1_3: Contribution to the refugee situation: Administrative contribution

Value	Label	Cases	Percentage
1	Administrative contribution (e.g. coordinated action/information work)	30	0.6%
97	No answer	12	0.2%
98	Not asked	3669	75.5%
Sysmiss		5783	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r6friiv1_4: Contribution to the refugee situation: Other form of contribution

Information	[Type= discrete] [Format=numeric] [Range= 1-1] [Missing=*]
Statistics [NW/ W]	[Valid=4859 /-] [Invalid=5783 /-]
Pre-question	Many refugees and asylum seekers have come to Norway in the course of the last year. During the last 12 months, have you made any of the following contributions in connection with the refugee situation? More than one answer possible
Literal question	Other form of contribution; specify:
Interviewer's instructions	[Asked if u=1]

Value	Label	Cases	Percentage
0		1130	23.3%
1	Other form of contribution, specify:	48	1.0%
97	No answer	12	0.2%
98	Not asked	3669	75.5%
Sysmiss		5783

Information	[Type= discrete] [Format=numeric] [Range= 1-5] [Missing=*]
Statistics [NW/ W]	[Valid=4859 /-] [Invalid=5783 /-]
Pre-question	In Paris in December 2015, most countries came to an international agreement to limit global warming to less than two degrees.
Literal question	Are you for or against Norway being part of this agreement?
Interviewer's instructions	[Asked if u=2]

Value	Label	Cases	Percentage
1	Strongly against	27	0.6%
2	Somewhat against	30	0.6%
3	Neither for nor against	197	4.1%
4	Somewhat for	295	6.1%

r6km65: For or against: Norway being part of Paris Agreement

Value	Label	Cases	Percentage
5	Strongly for	683	14.1%
97	No answer	17	0.3%
98	Not asked	3610	74.3%
Sysmiss		5783	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

rankm66: [Randomizes if u=2. A randomization variable that determines whether the answerlist in R6KM66 is displayed in order or in reversed order.]

Information	[Type= discrete] [Format=numeric] [Range= 1-2] [Missing=*]
Statistics [NW/ W]	[Valid=1242 /-] [Invalid=9400 /-]
Interviewer's instructions	[Randomizes if u=2. A randomization variable that determines whether the answerlist in R6KM66 is displayed in order or in reversed order.]

Value	Label	Cases	Percentage
1	In order	621	50.0%
2	In flipped order	621	50.0%
Sysmiss		9400	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r6km66: Attitude: Development in the petroleum industry

Information	[Type= discrete] [Format=numeric] [Range= 1-5] [Missing=*]
Statistics [NW/ W]	[Valid=4859 /-] [Invalid=5783 /-]
Pre-question	Production of oil and gas is an important industry for Norway. The industry provides many jobs and considerable income for society. At the same time, burning fossil energy is the main cause of climate change and activities on the Norwegian continental shelf contribute about 1/4 of Norway's greenhouse gas emissions. Opening new areas is also controversial because it can affect life in the sea and at the ice edge. The political parties have different opinions about how the petroleum industry should be developed over the next 20 to 30 years. There is disagreement over both how large the industry should be and whether new areas should be opened.
Literal question	Which of the following alternatives is closest to your view?
Interviewer's instructions	[Randomizes if u=2. ranKM66 determines whether the answerlist in R6KM66 is displayed in order or in reversed order.]

Value	Label	Cases	Percentage
1	In 20 to 30 years, the industry should be as developed as possible. We should open up to new search areas and if possible facilitate further growth.	71	1.5%
2	In 20 to 30 years, the industry should be as developed as it is today. We should make environmental considerations like we do today, and open up new search areas where environmentally justifiable, while encouraging to maintain the industry.	470	9.7%
3	In 20 to 30 years, the industry should be less developed than today. We should therefore not open up new areas, and searches should be limited to areas where activity has already been established.	380	7.8%
4	In 20 to 30 years, the industry should be considerably less developed than today. We should therefore not allow searches for new resources, and we should only permit production in existing fields until they have been depleted.	198	4.1%
5	In 20 to 30 years, the industry should be discontinued. We should therefore not allow searches for new fields. The production in existing fields should be reduced considerably within the next 5 years and closed down within the course of the time period.	86	1.8%
97	No answer	44	0.9%
98	Not asked	3610	74.3%
Sysmiss		5783

r6km67_1: Positive/negative about: Tighten up the regulations governing permitted industrial CO2 emissions in Norway and Europe by cutting the number of quotas available to industry

Information	[Type= discrete] [Format=numeric] [Range= 1-7] [Missing=*]
Statistics [NW/ W]	[Valid=4859 /-] [Invalid=5783 /-]
Pre-question	We will now ask you about your opinion on a number of measures that have been proposed in order to reduce climate change. Many experts believe that the measures mentioned below will work. However, there may be disagreement about whether or not these are good measures to implement. How positive or negative are you about the measures mentioned here?
Literal question	Tighten up the regulations governing permitted industrial CO2 emissions in Norway and Europe by cutting the number of quotas available to industry.
Interviewer's instructions	[The questions in grid R6KM67 are randomized pairwise. R6KM67_1 or R6KM67_2 is displayed to the respondent, dependent on ran5_1.]

Value	Label	Cases	Percentage
1	Very positive	59	1.2%
2	Positive	184	3.8%
3	Somewhat positive	184	3.8%
4	Neiter positive nor negative	121	2.5%
5	Somewhat negative	21	0.4%
6	Negative	16	0.3%
7	Very negative	7	0.1%
97	No answer	21	0.4%
98	Not asked	4246	87.4%
Sysmiss		5783	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r6km67_2: Positive/negative about: Tighten up the regulations governing total permitted industrial CO2 emissions in Europe

Information	[Type= discrete] [Format=numeric] [Range= 1-7] [Missing=*]
Statistics [NW/ W]	[Valid=4859 /-] [Invalid=5783 /-]
Pre-question	We will now ask you about your opinion on a number of measures that have been proposed in order to reduce climate change. Many experts believe that the measures mentioned below will work. However, there may be disagreement about whether or not these are good measures to implement. How positive or negative are you about the measures mentioned here?
Literal question	Tighten up the regulations governing total permitted industrial CO2 emissions in Norway and Europe.
Interviewer's instructions	[The questions in grid R6KM67 are randomized pairwise. R6KM67_1 or R6KM67_2 is displayed to the respondent, dependent on ran5_1.]

Value	Label	Cases	Percentage
1	Very positive	98	2.0%
2	Positive	227	4.7%
3	Somewhat positive	166	3.4%
4	Neiter positive nor negative	81	1.7%
5	Somewhat negative	17	0.3%
6	Negative	9	0.2%
7	Very negative	10	0.2%

5	Somewhat negative	4	0.1%
6	Negative	2	0.0%
7	Very negative	1	0.0%
97	No answer	19	0.4%
98	Not asked	4231	87.1%
Sysmiss		5783	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r6km67_6: Positive/negative about: Increase funding for renewable energy, even though this means less money for other purposes

Information	[Type= discrete] [Format=numeric] [Range= 1-7] [Missing=*]
Statistics [NW/ W]	[Valid=4859 /-] [Invalid=5783 /-]
Pre-question	We will now ask you about your opinion on a number of measures that have been proposed in order to reduce climate change. Many experts believe that the measures mentioned below will work. However, there may be disagreement about whether or not these are good measures to implement. How positive or negative are you about the measures mentioned here?
Literal question	Increase funding for research on and development of renewable energy, even if this means that less money is available for other important purposes.
Interviewer's instructions	[The questions in grid R6KM67 are randomized pairwise. R6KM67_5 or R6KM67_6 is displayed to the respondent, dependent on ran5_3.]

Value	Label	Cases	Percentage
1	Very positive	147	3.0%
2	Positive	212	4.4%
3	Somewhat positive	168	3.5%
4	Neiter positive nor negative	51	1.0%
5	Somewhat negative	15	0.3%
6	Negative	2	0.0%
7	Very negative	4	0.1%
97	No answer	10	0.2%
98	Not asked	4250	87.5%
Sysmiss		5783	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r6km67_7: Positive/negative about: Increased government support for geothermal energy

Information	[Type= discrete] [Format=numeric] [Range= 1-7] [Missing=*]
Statistics [NW/ W]	[Valid=4859 /-] [Invalid=5783 /-]
Pre-question	We will now ask you about your opinion on a number of measures that have been proposed in order to reduce climate change. Many experts believe that the measures mentioned below will work. However, there may be disagreement about whether or not these are good measures to implement. How positive or negative are you about the measures mentioned here?
Literal question	Increased government support for developing geothermal energy where one drills down to the geothermal energy under the Earth's surface.
Interviewer's instructions	[All respondents are asked R6KM67_7, long as u=2.]

Value	Label	Cases	Percentage
1	Very positive	216	4.4%
2	Positive	485	10.0%
3	Somewhat positive	244	5.0%
4	Neiter positive nor negative	221	4.5%
5	Somewhat negative	19	0.4%
6	Negative	10	0.2%
7	Very negative	4	0.1%
97	No answer	50	1.0%
98	Not asked	3610	74.3%
Sysmiss		5783	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r6km67_8: Positive/negative about: Attempt to change weather and climate

Information	[Type= discrete] [Format=numeric] [Range= 1-7] [Missing=*]
Statistics [NW/ W]	[Valid=4859 /-] [Invalid=5783 /-]

r6km67_8: Positive/negative about: Attempt to change weather and climate

Pre-question	We will now ask you about your opinion on a number of measures that have been proposed in order to reduce climate change. Many experts believe that the measures mentioned below will work. However, there may be disagreement about whether or not these are good measures to implement. How positive or negative are you about the measures mentioned here?
Literal question	Attempt to change the weather and climate by, for example, sending up sulphur particles to block the sunlight. This measure would probably reduce the temperature on Earth for a certain time, but would not help with problems such as ocean acidification
Interviewer's instructions	[The questions in grid R6KM67 are randomized pairwise. R6KM67_8 or R6KM67_9 is displayed to the respondent, dependent on ran5_4.]

Value	Label	Cases	Percentage
1	Very positive	0	
2	Positive	10	0.2%
3	Somewhat positive	23	0.5%
4	Neiter positive nor negative	131	2.7%
5	Somewhat negative	100	2.1%
6	Negative	175	3.6%
7	Very negative	168	3.5%
97	No answer	25	0.5%
98	Not asked	4227	87.0%
Sysmiss		5783	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r6km67_9: Positive/negative about: Attempt to change weather and climate, artificial volcano

Information	[Type= discrete] [Format=numeric] [Range= 1-7] [Missing=*]
Statistics [NW/ W]	[Valid=4859 /-] [Invalid=5783 /-]
Pre-question	We will now ask you about your opinion on a number of measures that have been proposed in order to reduce climate change. Many experts believe that the measures mentioned below will work. However, there may be disagreement about whether or not these are good measures to implement. How positive or negative are you about the measures mentioned here?
Literal question	Attempt to change the weather and climate by, for example, sending up sulphur particles to block the sunlight. This could work as a kind of artificial volcano. During the course of history, major volcanic eruptions have reduced the temperature on Earth for a period. This measure would probably reduce the temperature on Earth for a certain time, but would not help with problems such as ocean acidification
Interviewer's instructions	[The questions in grid R6KM67 are randomized pairwise. R6KM67_8 or R6KM67_9 is displayed to the respondent, dependent on ran5_4.]

Value	Label	Cases	Percentage
1	Very positive	0	
2	Positive	10	0.2%
3	Somewhat positive	16	0.3%
4	Neiter positive nor negative	153	3.1%
5	Somewhat negative	81	1.7%
6	Negative	169	3.5%
7	Very negative	161	3.3%
97	No answer	15	0.3%
98	Not asked	4254	87.5%
Sysmiss		5783	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r6km68: Heard about this proposal to let part of the world’s coal, oil and gas stay in the ground/under the seabed?

Information	[Type= discrete] [Format=numeric] [Range= 1-2] [Missing=*]
Statistics [NW/ W]	[Valid=4859 /-] [Invalid=5783 /-]

r6km68: Heard about this proposal to let part of the world's coal, oil and gas stay in the ground/under the seabed?

Pre-question	Some people have said recently that only part of the world's coal, oil and gas can be used if the climate is to be kept relatively stable, and have proposed that the rest must remain underground or below the seabed. Others have said that the world needs reliable, cheap energy and that we therefore need to continue to use coal, oil and gas.
Literal question	Have you heard about this proposal to let part of the world's coal, oil and gas stay in the ground or under the seabed?
Interviewer's instructions	[Asked if u=2]

Value	Label	Cases	Percentage
1	Yes, I have heard about it.	618	12.7%
2	No, I have not heard about it.	600	12.3%
97	No answer	31	0.6%
98	Not asked	3610	74.3%
Sysmiss		5783	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r6km69: Good/bad decision that the Oil Fund should sell its investments in companies involved in coal

Information	[Type= discrete] [Format=numeric] [Range= 1-7] [Missing=*]
Statistics [NW/ W]	[Valid=4859 /-] [Invalid=5783 /-]
Pre-question	In 2015, the Norwegian parliament (the Storting) decided that the Government Pension Fund Global (the "Oil Fund") should sell its investments in companies involved in coal mining and coal-fired power.
Literal question	As you see it, was this a good or a bad decision?
Interviewer's instructions	[Asked if u=2]

Value	Label	Cases	Percentage
1	Very good	234	4.8%
2	Good	435	9.0%
3	Quite good	191	3.9%
4	Neither good nor bad	255	5.2%
5	Quite bad	56	1.2%
6	Bad	29	0.6%
7	Very bad	13	0.3%
97	No answer	36	0.7%
98	Not asked	3610	74.3%
Sysmiss		5783	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r6trans1: Thoughts when you read/hear the words 'transgender persons'?

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=1052 /-]
Literal question	What do you think when you read or hear the words transgender person?
Post-question	Please write the first thing that comes into your mind. We want all types of answers; a couple of sentences would be good, or just a few words if that is better for you.
Interviewer's instructions	[Asked if u=2]

r6ran15: [Randomizes if u=2]

Information	[Type= discrete] [Format=numeric] [Range= 1-4] [Missing=*]
Statistics [NW/ W]	[Valid=1228 /-] [Invalid=9414 /-]
Interviewer's instructions	[Randomizes if u=2]

Value	Label	Cases	Percentage
1	1	340	27.7%

r6ran15: [Randomizes if u=2]

Value	Label	Cases	Percentage
2	2	305	24.8%
3	3	289	23.5%
4	4	294	23.9%
Sysmiss		9414	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r6trans2a: Requirement for changing legal gender: Most common rules

Information	[Type= discrete] [Format=numeric] [Range= 1-5] [Missing=*]
Statistics [NW/ W]	[Valid=4859 /-] [Invalid=5783 /-]
Pre-question	Some people have a gender identity or gender expression that differs from the norm for their biological gender. These are often called transgender persons. Many transgender persons wish to change their legal gender so that their official documents (passport, driving licence etc.) are in accordance with their perceived gender identity. What is required for a person to be allowed to change legal gender varies from country to country. The list below gives the most common rules.
Literal question	Which of these rules do you think should apply in Norway?
Interviewer's instructions	[Asked if u=2 and ran15=1]

Value	Label	Cases	Percentage
1	Requirement for sterilisation, diagnosis as transsexual and medical treatment	7	0.1%
2	Requirement for diagnosis as transsexual and medical treatment	44	0.9%
3	Requirement for diagnosis as transsexual	63	1.3%
4	No absolute requirements, the person decides	186	3.8%
5	It should not be possible to change legal gender	28	0.6%
97	No answer	12	0.2%
98	Not asked	4519	93.0%
Sysmiss		5783	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r6trans2b: Requirement for changing legal gender: Most common rules + where they apply

Information	[Type= discrete] [Format=numeric] [Range= 1-5] [Missing=*]
Statistics [NW/ W]	[Valid=4859 /-] [Invalid=5783 /-]
Pre-question	Some people have a gender identity or gender expression that differs from the norm for their biological gender. These are often called transgender persons. Many transgender persons wish to change their legal gender so that their official documents (passport, driving licence etc.) are in accordance with their perceived gender identity. What is required for a person to be allowed to change legal gender varies from country to country. The list below gives the most common rules and examples of where these rules apply.
Literal question	Which of these rules do you think should apply in Norway?
Interviewer's instructions	[Asked if u=2 and ran15=2]

Value	Label	Cases	Percentage
1	Requirement for sterilisation, diagnosis as transsexual and medical treatment (practised in Romania and Slovenia for example).	3	0.1%
2	Requirement for diagnosis as transsexual and medical treatment (practised in Sweden, Spain and Estonia for example).	41	0.8%
3	Requirement for diagnosis as transsexual (practised in Austria, the Netherlands and Germany for example).	72	1.5%
4	No absolute requirements, the person decides after reaching the age of 16 (practised in Denmark, Argentina and Malta for example).	144	3.0%
5	It should not be possible to change legal gender	27	0.6%

r6trans2b: Requirement for changing legal gender: Most common rules + where they apply

Value	Label	Cases	Percentage
97	No answer	18	0.4%
98	Not asked	4554	93.7%
Sysmiss		5783	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r6trans2c: Requirement for changing legal gender: Most common rules + where they apply (Norway included)

Information	[Type= discrete] [Format=numeric] [Range= 1-5] [Missing=*]
Statistics [NW/ W]	[Valid=4859 /-] [Invalid=5783 /-]
Pre-question	Some people have a gender identity or gender expression that differs from the norm for their biological gender. These are often called transgender persons. Many transgender persons wish to change their legal gender so that their official documents (passport, driving licence etc.) are in accordance with their perceived gender identity. What is required for a person to be allowed to change legal gender varies from country to country. The list below gives the most common rules and examples of where these rules apply.
Literal question	Which of these rules do you think should apply in Norway?
Interviewer's instructions	[Asked if u=2 and ran15=3]

Value	Label	Cases	Percentage
1	Requirement for sterilisation, diagnosis as transsexual and medical treatment (the current practice in Norway)	50	1.0%
2	Requirement for diagnosis as transsexual and medical treatment (practised in Sweden, Spain and Estonia for example).	39	0.8%
3	Requirement for diagnosis as transsexual (practised in Austria, the Netherlands and Germany for example).	38	0.8%
4	No absolute requirements, the person decides after reaching the age of 16 (practised in Denmark, Argentina and Malta for example).	128	2.6%
5	It should not be possible to change legal gender	23	0.5%
97	No answer	11	0.2%
98	Not asked	4570	94.1%
Sysmiss		5783	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r6trans2d: Requirement for changing legal gender: Most common rules + where they apply (Norway included) + changing the rules in Norway

Information	[Type= discrete] [Format=numeric] [Range= 1-5] [Missing=*]
Statistics [NW/ W]	[Valid=4859 /-] [Invalid=5783 /-]
Pre-question	Some people have a gender identity or gender expression that differs from the norm for their biological gender. These are often called transgender persons. Many transgender persons wish to change their legal gender so that their official documents (passport, driving licence etc.) are in accordance with their perceived gender identity. What is required for a person to be allowed to change legal gender varies from country to country. The list below gives the most common rules and examples of where these rules apply. In Norway a process is currently under way to change the rules. The proposed law is that persons aged over 16 should decide their legal gender themselves.
Literal question	Which of these rules do you think should apply in Norway?
Interviewer's instructions	[Asked if u=2 and ran15=4]

Value	Label	Cases	Percentage
1	Requirement for sterilisation, diagnosis as transsexual and medical treatment (practised in Norway, Romania and Slovenia for example).	11	0.2%
2	Requirement for diagnosis as transsexual and medical treatment (practised in Sweden, Spain and Estonia for example).	18	0.4%

r6trans2d: Requirement for changing legal gender: Most common rules + where they apply (Norway included) + changing the rules in Norway

Value	Label	Cases	Percentage
3	Requirement for diagnosis as transsexual (practised in Austria, the Netherlands and Germany for example).	30	0.6%
4	No absolute requirements, the person decides after reaching the age of 16 (practised in Denmark, Argentina and Malta for example). This is the new proposal in Norway.	193	4.0%
5	It should not be possible to change legal gender	27	0.6%
97	No answer	15	0.3%
98	Not asked	4565	93.9%
Sysmiss		5783	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r6ran16: [Randomizes if u=2]

Information	[Type= discrete] [Format=numeric] [Range= 1-3] [Missing=*]
Statistics [NW/ W]	[Valid=1225 /-] [Invalid=9417 /-]
Interviewer's instructions	[Randomizes if u=2]

Value	Label	Cases	Percentage
1	1	426	34.8%
2	2	413	33.7%
3	3	386	31.5%
Sysmiss		9417	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r6trans3a: Agree/disagree: Should introduce the possibility of putting "A" in passport

Information	[Type= discrete] [Format=numeric] [Range= 1-7] [Missing=*]
Statistics [NW/ W]	[Valid=4859 /-] [Invalid=5783 /-]
Literal question	How much do you agree or disagree that Norway should introduce the possibility of putting “A” (for annet - other) as a third gender alternative in the passport, in addition to “M” (man) and “K” (kvinne - woman)?
Interviewer's instructions	[Asked if u=2 and ran16=1]

Value	Label	Cases	Percentage
1	Strongly agree	34	0.7%
2	Agree	64	1.3%
3	Somewhat agree	35	0.7%
4	Neither agree nor disagree	102	2.1%
5	Somewhat disagree	35	0.7%

r6dv73a: Opinion of: Right of reservation from abortion

Information	[Type= discrete] [Format=numeric] [Range= 1-3] [Missing=*]
Statistics [NW/ W]	[Valid=4859 /-] [Invalid=5783 /-]
Pre-question	The question of health personnel being able to reserve themselves from taking part in abortions is controversial in many countries. In Norway a proposal has been put forward to increase the possibility of general practitioners reserving themselves from giving referrals for abortion.
Literal question	What is your opinion of this?
Interviewer's instructions	[Asked if u=2 and ran18=1]

Value	Label	Cases	Percentage
1	Strongly agree. Doctors should be fully allowed to reserve themselves from referring patients for abortions.	34	0.7%
2	Partly agree. Doctors should in some cases be allowed to reserve themselves from referring patients for abortions.	84	1.7%
3	Strongly disagree. Doctors should not be allowed to reserve themselves from referring patients for abortions.	264	5.4%
97	No answer	5	0.1%
98	Not asked	4472	92.0%
Sysmiss		5783	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r6dv73b: Opinion of: Right of reservation from abortion, anti-abortion-activists wants to make it hard for women to obtain legal abortion

Information	[Type= discrete] [Format=numeric] [Range= 1-3] [Missing=*]
Statistics [NW/ W]	[Valid=4859 /-] [Invalid=5783 /-]
Pre-question	The question of health personnel being able to reserve themselves from taking part in abortions is controversial in many countries. Anti-abortion activists worldwide are working to strengthen the right to reservation and that health personnel and institutions should reserve themselves, so as to make it difficult for women to obtain legal abortions. In many parts of Latin America it is practically impossible to obtain a legal abortion because so many have used the right to reservation. In Norway a proposal has been put forward to increase the possibility of general practitioners reserving themselves from giving referrals for abortion.
Literal question	What is your opinion of this?
Interviewer's instructions	[Asked if u=2 and ran18=2]

Value	Label	Cases	Percentage
1	Strongly agree. Doctors should be fully allowed to reserve themselves from referring patients for abortions.	44	0.9%
2	Partly agree. Doctors should in some cases be allowed to reserve themselves from referring patients for abortions.	100	2.1%
3	Strongly disagree. Doctors should not be allowed to reserve themselves from referring patients for abortions.	279	5.7%
97	No answer	10	0.2%
98	Not asked	4426	91.1%
Sysmiss		5783	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r6dv73c: Opinion of: Right of reservation from abortion, campaigners for a strong right of reservation concerned about doctors being compelled to act counter to their religious/ethical convictions

Information	[Type= discrete] [Format=numeric] [Range= 1-3] [Missing=*]
Statistics [NW/ W]	[Valid=4859 /-] [Invalid=5783 /-]

r6dv73c: Opinion of: Right of reservation from abortion, campaigners for a strong right of reservation concerned about doctors being compelled to act counter to their religious/ethical convictions

Pre-question	The question of health personnel being able to reserve themselves from taking part in abortions is controversial in many countries. Campaigners for a strong right of reservation are concerned about doctors and other health workers being compelled to act counter to their religious or ethical convictions or having to give up their jobs. In Norway a proposal has been put forward to increase the possibility of general practitioners reserving themselves from giving referrals for abortion.
Literal question	What is your opinion of this?
Interviewer's instructions	[Asked if u=2 and ran18=3]

Value	Label	Cases	Percentage
1	Strongly agree. Doctors should be fully allowed to reserve themselves from referring patients for abortions.	51	1.0%
2	Partly agree. Doctors should in some cases be allowed to reserve themselves from referring patients for abortions.	95	2.0%
3	Strongly disagree. Doctors should not be allowed to reserve themselves from referring patients for abortions.	250	5.1%
97	No answer	6	0.1%
98	Not asked	4457	91.7%
Sysmiss		5783	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

Value	Label	Cases	Percentage
1	1	383	32.9%
2	2	378	32.5%
3	3	402	34.6%
Sysmiss		9479	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r6pad1a: Likelihood of taking vaccine

Information	[Type= discrete] [Format=numeric] [Range= 1-5] [Missing=*]
Statistics [NW/ W]	[Valid=4859 /-] [Invalid=5783 /-]
Pre-question	Imagine that a new infectious disease has arisen in the world and that it is on its way to Norway. Those who are infected get flu-like symptoms, but usually become completely well again. A few deaths have been recorded due to the virus, and there is a fear that it might mutate and become dangerous for many more people. A vaccine against the disease has been developed, but has not been fully tested with regard to side effects.
Literal question	How likely is it that you would take the vaccine in such a situation?
Interviewer's instructions	[Asked if u=3 and ran6=1]

Value	Label	Cases	Percentage
1	Very likely	23	0.5%
2	Likely	58	1.2%
3	Somewhat likely	103	2.1%
4	Slightly likely	151	3.1%
5	Not likely at all	48	1.0%
97	No answer	0	

r6pad1a: Likelihood of taking vaccine

Value	Label	Cases	Percentage
98	Not asked	4476	92.1%
Sysmiss		5783	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r6pad1b: Likelihood of taking vaccine, part of the population not vaccinated and is dependent on most of the population taking it

Information	[Type= discrete] [Format=numeric] [Range= 1-5] [Missing=*]
Statistics [NW/ W]	[Valid=4859 /-] [Invalid=5783 /-]
Pre-question	Imagine that a new infectious disease has arisen in the world and that it is on its way to Norway. Those who are infected get flu-like symptoms, but usually become completely well again. A few deaths have been recorded due to the virus, and there is a fear that it might mutate and become dangerous for many more people. A vaccine against the disease has been developed, but has not been fully tested with regard to side effects. There will always be part of the population that is not vaccinated due to their young age, allergy or poor health. This group is entirely dependent on most of the population being vaccinated, so that they are not infected.
Literal question	How likely is it that you would take the vaccine in such a situation?
Interviewer's instructions	[Asked if u=3 and ran6=2]

Value	Label	Cases	Percentage
1	Very likely	89	1.8%
2	Likely	103	2.1%
3	Somewhat likely	106	2.2%
4	Slightly likely	54	1.1%
5	Not likely at all	24	0.5%
97	No answer	2	0.0%
98	Not asked	4481	92.2%
Sysmiss		5783	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r6pad1c: Likelihood of taking vaccine, your own body stimulates rapid mobilisation against disease by taking the vaccine

Information	[Type= discrete] [Format=numeric] [Range= 1-5] [Missing=*]
Statistics [NW/ W]	[Valid=4859 /-] [Invalid=5783 /-]
Pre-question	Imagine that a new infectious disease has arisen in the world and that it is on its way to Norway. Those who are infected get flu-like symptoms, but usually become completely well again. A few deaths have been recorded due to the virus, and there is a fear that it might mutate and become dangerous for many more people. A vaccine against the disease has been developed, but has not been fully tested with regard to side effects. The vaccine stimulates your body to rapid mobilisation against the disease, thus keeping you healthy.
Literal question	How likely is it that you would take the vaccine in such a situation?
Interviewer's instructions	[Asked if u=3 and ran6=3]

Value	Label	Cases	Percentage
1	Very likely	47	1.0%
2	Likely	73	1.5%
3	Somewhat likely	116	2.4%
4	Slightly likely	122	2.5%
5	Not likely at all	43	0.9%
97	No answer	1	0.0%
98	Not asked	4457	91.7%
Sysmiss		5783	

r6pad1c: Likelihood of taking vaccine, your own body stimulates rapid mobilisation against disease by taking the vaccine

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r6ran7: [Randomizes if u=3]

Information	[Type= discrete] [Format=numeric] [Range= 1-4] [Missing=*]

r6pad3d_5: Statement: Easy to see what is advertising and what is editorial in Norwegian online newspapers

Information	[Type= discrete] [Format=numeric] [Range= 1-7] [Missing=*]
Statistics [NW/ W]	[Valid=4859 /-] [Invalid=5783 /-]
Pre-question	Notice the text box above. It is taken from the piece you just saw. This means that the hypothetical article you just saw would represent a portrait interview. Several Norwegian newspapers write such portrait interviews. To what extent would you agree or disagree with the following statements about Norwegian online newspapers:
Literal question	It is easy to see the difference between what is advertising and what is editorial in Norwegian online newspapers.
Interviewer's instructions	[Asked if u=3 and ran7=4. Note: Respondents are exposed to visual stimulation (picture). See appendix]

Value	Label	Cases	Percentage
1	Strongly agree	4	0.1%
2	Agree	35	0.7%
3	Somewhat agree	67	1.4%
4	Neither agree nor disagree	67	1.4%
5	Somewhat disagree	77	1.6%
6	Disagree	28	0.6%
7	Strongly disagree	6	0.1%
97	No answer	8	0.2%
98	Not asked	4567	94.0%
Sysmiss		5783	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r6pad8a_randomQorder: Part of conjunction experiment. Determines whether R6PAD8A is asked first, second, or third.

Information	[Type= discrete] [Format=numeric] [Missing=*]
Statistics [NW/ W]	[Valid=1159 /-] [Invalid=9483 /-] [Mean=2.054 /-] [StdDev=0.807 /-]
Interviewer's instructions	[Part of conjunction experiment. Determines whether R6PAD8A is asked first, second, or third.]

Value	Label	Cases	Percentage
1	First	347	29.9%
2	Second	402	34.7%
3	Third	410	35.4%
Sysmiss		9483	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r6pad8b_randomQorder: Part of conjunction experiment. Determines whether R6PAD8B is asked first, second, or third.

Information	[Type= discrete] [Format=numeric] [Missing=*]
Statistics [NW/ W]	[Valid=1159 /-] [Invalid=9483 /-] [Mean=1.942 /-] [StdDev=0.83 /-]
Interviewer's instructions	[Part of conjunction experiment. Determines whether R6PAD8B is asked first, second, or third.]

r6pad8b_randomQorder: Part of conjunction experiment. Determines whether R6PAD8B is asked first, second, or third.

Value	Label	Cases	Percentage
1	First	434	37.4%
2	Second	358	30.9%
3	Third	367	31.7%
Sysmiss		9483	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r6pad8c_randomQorder: Part of conjunction experiment. Determines whether R6PAD8C is asked first, second, or third.

Information	[Type= discrete] [Format=numeric] [Missing=*]
Statistics [NW/ W]	[Valid=1159 /-] [Invalid=9483 /-] [Mean=2.003 /-] [StdDev=0.81 /-]
Interviewer's instructions	[Part of conjunction experiment. Determines whether R6PAD8C is asked first, second, or third.]

Value	Label	Cases	Percentage
1	First	378	32.6%
2	Second	399	34.4%
3	Third	382	33.0%
Sysmiss		9483	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r6pad8a_rep1_age: Choice of hypothetical political representative. Background variable for representative 1 in r6pad8a: age

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=1159 /-] [Invalid=0 /-]
Interviewer's instructions	[Part of conjunction experiment. The rep1_8A variables constitutes the full background of one of six representatives. rep1_8A and rep2_8A are presented together. See R6PAD8 in appendix]

Value	Label	Cases	Percentage
1	22 years	173	14.9%
2	30 years	172	14.8%
3	40 years	167	14.4%
4	50 years	152	13.1%
5	60 years	164	14.2%
6	70 years	165	14.2%
7	80 years	166	14.3%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r6pad8a_rep1_gender: Choice of hypothetical political representative. Background variable for representative 1 in r6pad8a: gender

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=1159 /-] [Invalid=0 /-]
Interviewer's instructions	[Part of conjunction experiment. The rep1_8A variables constitutes the full background of one of six representatives. rep1_8A and rep2_8A are presented together. See R6PAD8 in appendix]

Value	Label	Cases	Percentage
1	Female	566	48.8%
2	Male	593	51.2%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r6pad8a_rep1_region: Choice of hypothetical political representative. Background variable for representative 1 in r6pad8a: region

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=1159 /-] [Invalid=0 /-]
Interviewer's instructions	[Part of conjunction experiment. The rep1_8A variables constitutes the full background of one of six representatives. rep1_8A and rep2_8A are presented together. See R6PAD8 in appendix]

Value	Label	Cases	Percentage
1	Nord-Norge	203	17.5%
2	Midt-Norge	186	16.0%
3	Vestlandet	189	16.3%
4	Sørlandet	214	18.5%
5	Østlandet	180	15.5%
6	Oslo-området	187	16.1%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r6pad8a_rep1_relationship: Choice of hypothetical political representative. Background variable for representative 1 in r6pad8a: relationship

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=1159 /-] [Invalid=0 /-]
Interviewer's instructions	[Part of conjunction experiment. The rep1_8A variables constitutes the full background of one of six representatives. rep1_8A and rep2_8A are presented together. See R6PAD8 in appendix]

Value	Label	Cases	Percentage
1	Married	407	35.1%
2	Living alone	400	34.5%
3	Cohabitant	352	30.4%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r6pad8a_rep1_education: Choice of hypothetical political representative. Background variable for representative 1 in r6pad8a: education

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=1159 /-] [Invalid=0 /-]
Interviewer's instructions	[Part of conjunction experiment. The rep1_8A variables constitutes the full background of one of six representatives. rep1_8A and rep2_8A are presented together. See R6PAD8 in appendix]

Value	Label	Cases	Percentage
1	Elementary school	294	25.4%
2	High school	288	24.8%
3	University	292	25.2%
4	Ph.D.	285	24.6%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r6pad8a_rep1_religion: Choice of hypothetical political representative. Background variable for representative 1 in r6pad8a: religion

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=1159 /-] [Invalid=0 /-]
Interviewer's instructions	[Part of conjunction experiment. The rep1_8A variables constitutes the full background of one of six representatives. rep1_8A and rep2_8A are presented together. See R6PAD8 in appendix]

Value	Label	Cases	Percentage
1	None	380	32.8%
2	Christianity	380	32.8%

r6pad8a_rep1_religion: Choice of hypothetical political representative. Background variable for representative 1 in r6pad8a: religion

Value	Label	Cases	Percentage
3	Islam	399	34.4%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r6pad8a_rep1_work: Choice of hypothetical political representative. Background variable for representative 1 in r6pad8a: work

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=1159 /-] [Invalid=0 /-]
Interviewer's instructions	[Part of conjunction experiment. The rep1_8A variables constitutes the full background of one of six representatives. rep1_8A and rep2_8A are presented together. See R6PAD8 in appendix]

Value	Label	Cases	Percentage
1	Nursery employee	180	15.5%
2	Farmer	193	16.7%
3	Oil worker	195	16.8%
4	Self-employed	182	15.7%
5	IT-consultant	211	18.2%
6	No work experience	198	17.1%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r6pad8a_rep2_age: Choice of hypothetical political representative. Background variable for representative 2 in r6pad8a: age

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=1159 /-] [Invalid=0 /-]
Interviewer's instructions	[Part of conjunction experiment. The rep2_8A variables constitutes the full background of one of six representatives. rep1_8A and rep2_8A are presented together. See R6PAD8 in appendix]

Value	Label	Cases	Percentage
1	22 years	158	13.6%
2	30 years	143	12.3%
3	40 years	186	16.0%
4	50 years	169	14.6%
5	60 years	157	13.5%
6	70 years	166	14.3%
7	80 years	180	15.5%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r6pad8a_rep2_gender: Choice of hypothetical political representative. Background variable for representative 2 in r6pad8a: gender

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=1159 /-] [Invalid=0 /-]
Interviewer's instructions	[Part of conjunction experiment. The rep2_8A variables constitutes the full background of one of six representatives. rep1_8A and rep2_8A are presented together. See R6PAD8 in appendix]

Value	Label	Cases	Percentage
1	Female	586	50.6%
2	Male	573	49.4%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r6pad8a_rep2_region: Choice of hypothetical political representative. Background variable for representative 2 in r6pad8a: region

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=1159 /-] [Invalid=0 /-]
Interviewer's instructions	[Part of conjunction experiment. The rep2_8A variables constitutes the full background of one of six representatives. rep1_8A and rep2_8A are presented together. See R6PAD8 in appendix]

Value	Label	Cases	Percentage
1	Nord-Norge	208	17.9%
2	Midt-Norge	175	15.1%
3	Vestlandet	188	16.2%
4	Sørlandet	200	17.3%
5	Østlandet	196	16.9%
6	Oslo-området	192	16.6%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r6pad8a_rep2_relationship: Choice of hypothetical political representative. Background variable for representative 2 in r6pad8a: relationship

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=1159 /-] [Invalid=0 /-]
Interviewer's instructions	[Part of conjunction experiment. The rep2_8A variables constitutes the full background of one of six representatives. rep1_8A and rep2_8A are presented together. See R6PAD8 in appendix]

Value	Label	Cases	Percentage
1	Married	399	34.4%
2	Living alone	372	32.1%
3	Cohabitant	388	33.5%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r6pad8a_rep2_education: Choice of hypothetical political representative. Background variable for representative 2 in r6pad8a: education

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=1159 /-] [Invalid=0 /-]
Interviewer's instructions	[Part of conjunction experiment. The rep2_8A variables constitutes the full background of one of six representatives. rep1_8A and rep2_8A are presented together. See R6PAD8 in appendix]

Value	Label	Cases	Percentage
1	Elementary school	286	24.7%
2	High school	277	23.9%
3	University	274	23.6%
4	Ph.D.	322	27.8%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r6pad8a_rep2_religion: Choice of hypothetical political representative. Background variable for representative 2 in r6pad8a: religion

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=1159 /-] [Invalid=0 /-]
Interviewer's instructions	[Part of conjunction experiment. The rep2_8A variables constitutes the full background of one of six representatives. rep1_8A and rep2_8A are presented together. See R6PAD8 in appendix]

Value	Label	Cases	Percentage
1	None	391	33.7%
2	Christianity	384	33.1%

r6pad8a_rep2_religion: Choice of hypothetical political representative. Background variable for representative 2 in r6pad8a: religion

Value	Label	Cases	Percentage
3	Islam	384	33.1%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r6pad8a_rep2_work: Choice of hypothetical political representative. Background variable for representative 2 in r6pad8a: work

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=1159 /-] [Invalid=0 /-]
Interviewer's instructions	[Part of conjunction experiment. The rep2_8A variables constitutes the full background of one of six representatives. rep1_8A and rep2_8A are presented together. See R6PAD8 in appendix]

Value	Label	Cases	Percentage
1	Nursery employee	164	14.2%
2	Farmer	199	17.2%
3	Oil worker	194	16.7%
4	Self-employed	183	15.8%
5	IT-consultant	230	19.8%
6	No work experience	189	16.3%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r6pad8b_rep1_stance_1: Choice of hypothetical political representative. Background variable for representative 1 in r6pad8b: stance 1

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=1159 /-] [Invalid=0 /-]
Interviewer's instructions	[Part of conjunction experiment. The rep1_8B variables constitutes the full background of one of six representatives. rep1_8B and rep2_8B are presented together. See R6PAD8 in appendix]

Value	Label	Cases	Percentage
1	Strongly agree	161	13.9%
2	Agree	166	14.3%
3	Somewhat agree	155	13.4%
4	Neither agree nor disagree	176	15.2%
5	Somewhat disagree	155	13.4%
6	Disagree	165	14.2%
7	Strongly disagree	181	15.6%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r6pad8b_rep1_stance_2: Choice of hypothetical political representative. Background variable for representative 1 in r6pad8b: stance 2

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=1159 /-] [Invalid=0 /-]
Interviewer's instructions	[Part of conjunction experiment. The rep1_8B variables constitutes the full background of one of six representatives. rep1_8B and rep2_8B are presented together. See R6PAD8 in appendix]

Value	Label	Cases	Percentage
1	Strongly agree	182	15.7%
2	Agree	167	14.4%
3	Somewhat agree	164	14.2%
4	Neither agree nor disagree	171	14.8%
5	Somewhat disagree	157	13.5%

r6pad8b_rep1_stance_2: Choice of hypothetical political representative. Background variable for representative 1 in r6pad8b: stance 2

Value	Label	Cases	Percentage
6	Disagree	139	12.0%
7	Strongly disagree	179	15.4%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r6pad8b_rep1_stance_3: Choice of hypothetical political representative. Background variable for representative 1 in r6pad8b: stance 3

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=1159 /-] [Invalid=0 /-]
Interviewer's instructions	[Part of conjunction experiment. The rep1_8B variables constitutes the full background of one of six representatives. rep1_8B and rep2_8B are presented together. See R6PAD8 in appendix]

Value	Label	Cases	Percentage
1	Strongly agree	172	14.8%
2	Agree	158	13.6%
3	Somewhat agree	168	14.5%
4	Neither agree nor disagree	170	14.7%
5	Somewhat disagree	179	15.4%
6	Disagree	164	14.2%
7	Strongly disagree	148	12.8%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r6pad8b_rep2_stance_1: Choice of hypothetical political representative. Background variable for representative 2 in r6pad8b: stance 1

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=1159 /-] [Invalid=0 /-]
Interviewer's instructions	[Part of conjunction experiment. The rep2_8B variables constitutes the full background of one of six representatives. rep1_8B and rep2_8B are presented together. See R6PAD8 in appendix]

Value	Label	Cases	Percentage
1	Strongly agree	165	14.2%
2	Agree	169	14.6%
3	Somewhat agree	159	13.7%
4	Neither agree nor disagree	169	14.6%
5	Somewhat disagree	158	13.6%
6	Disagree	167	14.4%
7	Strongly disagree	172	14.8%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r6pad8b_rep2_stance_2: Choice of hypothetical political representative. Background variable for representative 2 in r6pad8b: stance 2

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=1159 /-] [Invalid=0 /-]
Interviewer's instructions	[Part of conjunction experiment. The rep2_8B variables constitutes the full background of one of six representatives. rep1_8B and rep2_8B are presented together. See R6PAD8 in appendix]

Value	Label	Cases	Percentage
1	Strongly agree	185	16.0%
2	Agree	182	15.7%
3	Somewhat agree	152	13.1%

r6pad8b_rep2_stance_2: Choice of hypothetical political representative. Background variable for representative 2 in r6pad8b: stance 2

Value	Label	Cases	Percentage
4	Neither agree nor disagree	161	13.9%
5	Somewhat disagree	165	14.2%
6	Disagree	152	13.1%
7	Strongly disagree	162	14.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r6pad8b_rep2_stance_3: Choice of hypothetical political representative. Background variable for representative 2 in r6pad8b: stance 3

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=1159 /-] [Invalid=0 /-]
Interviewer's instructions	[Part of conjunction experiment. The rep2_8B variables constitutes the full background of one of six representatives. rep1_8B and rep2_8B are presented together. See R6PAD8 in appendix]

Value	Label	Cases	Percentage
1	Strongly agree	149	12.9%
2	Agree	163	14.1%
3	Somewhat agree	166	14.3%
4	Neither agree nor disagree	169	14.6%
5	Somewhat disagree	179	15.4%
6	Disagree	171	14.8%
7	Strongly disagree	162	14.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r6pad8c_rep1_age: Choice of hypothetical political representative. Background variable for representative 1 in r6pad8c: age

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=1159 /-] [Invalid=0 /-]
Interviewer's instructions	[Part of conjunction experiment. The rep1_8C variables constitutes the full background of one of six representatives. rep1_8C and rep2_8C are presented together. See R6PAD8 in appendix]

Value	Label	Cases	Percentage
1	22 years	148	12.8%
2	30 years	154	13.3%
3	40 years	179	15.4%
4	50 years	162	14.0%
5	60 years	171	14.8%
6	70 years	177	15.3%
7	80 years	168	14.5%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r6pad8c_rep1_gender: Choice of hypothetical political representative. Background variable for representative 1 in r6pad8c: gender

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=1159 /-] [Invalid=0 /-]
Interviewer's instructions	[Part of conjunction experiment. The rep1_8C variables constitutes the full background of one of six representatives. rep1_8C and rep2_8C are presented together. See R6PAD8 in appendix]

Value	Label	Cases	Percentage
1	Female	598	51.6%

r6pad8c_rep1_gender: Choice of hypothetical political representative. Background variable for representative 1 in r6pad8c: gender

Value	Label	Cases	Percentage
2	Male	561	48.4%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r6pad8c_rep1_region: Choice of hypothetical political representative. Background variable for representative 1 in r6pad8c: region

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=1159 /-] [Invalid=0 /-]
Interviewer's instructions	[Part of conjunction experiment. The rep1_8C variables constitutes the full background of one of six representatives. rep1_8C and rep2_8C are presented together. See R6PAD8 in appendix]

Value	Label	Cases	Percentage
1	Nord-Norge	182	15.7%
2	Midt-Norge	190	16.4%
3	Vestlandet	198	17.1%
4	Sørlandet	218	18.8%
5	Østlandet	194	16.7%
6	Oslo-området	177	15.3%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r6pad8c_rep1_relationship: Choice of hypothetical political representative. Background variable for representative 1 in r6pad8c: relationship

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=1159 /-] [Invalid=0 /-]
Interviewer's instructions	[Part of conjunction experiment. The rep1_8C variables constitutes the full background of one of six representatives. rep1_8C and rep2_8C are presented together. See R6PAD8 in appendix]

Value	Label	Cases	Percentage
1	Married	393	33.9%
2	Living alone	382	33.0%
3	Cohabitant	384	33.1%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r6pad8c_rep1_education: Choice of hypothetical political representative. Background variable for representative 1 in r6pad8c: education

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=1159 /-] [Invalid=0 /-]
Interviewer's instructions	[Part of conjunction experiment. The rep1_8C variables constitutes the full background of one of six representatives. rep1_8C and rep2_8C are presented together. See R6PAD8 in appendix]

Value	Label	Cases	Percentage
1	Elementary school	280	24.2%
2	High school	276	23.8%
3	University	295	25.5%
4	Ph.D.	308	26.6%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r6pad8c_rep1_religion: Choice of hypothetical political representative. Background variable for representative 1 in r6pad8c: religion

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=1159 /-] [Invalid=0 /-]

r6pad8c_rep1_religion: Choice of hypothetical political representative. Background variable for representative 1 in r6pad8c: religion

Interviewer's instructions	[Part of conjunction experiment. The rep1_8C variables constitutes the full background of one of six representatives. rep1_8C and rep2_8C are presented together. See R6PAD8 in appendix]

Value	Label	Cases	Percentage
1	None	418	36.1%
2	Christianity	368	31.8%
3	Islam	373	32.2%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r6pad8c_rep1_work: Choice of hypothetical political representative. Background variable for representative 1 in r6pad8c: work

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=1159 /-] [Invalid=0 /-]
Interviewer's instructions	[Part of conjunction experiment. The rep1_8C variables constitutes the full background of one of six representatives. rep1_8C and rep2_8C are presented together. See R6PAD8 in appendix]

Value	Label	Cases	Percentage
1	Nursery employee	170	14.7%
2	Farmer	213	18.4%
3	Oil worker	190	16.4%
4	Self-employed	198	17.1%

7	80 years	152	13.1%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r6pad8c_rep2_gender: Choice of hypothetical political representative. Background variable for representative 2 in r6pad8c: gender

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=1159 /-] [Invalid=0 /-]
Interviewer's instructions	[Part of conjunction experiment. The rep2_8C variables constitutes the full background of one of six representatives. rep1_8C and rep2_8C are presented together. See R6PAD8 in appendix]

r6pad8c_rep2_gender: Choice of hypothetical political representative. Background variable for representative 2 in r6pad8c: gender

Value	Label	Cases	Percentage
1	Female	601	51.9%
2	Male	558	48.1%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r6pad8c_rep2_region: Choice of hypothetical political representative. Background variable for representative 2 in r6pad8c: region

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=1159 /-] [Invalid=0 /-]
Interviewer's instructions	[Part of conjunction experiment. The rep2_8C variables constitutes the full background of one of six representatives. rep1_8C and rep2_8C are presented together. See R6PAD8 in appendix]

Value	Label	Cases	Percentage
1	Nord-Norge	191	16.5%
2	Midt-Norge	198	17.1%
3	Vestlandet	175	15.1%
4	Sørlandet	197	17.0%
5	Østlandet	220	19.0%
6	Oslo-området	178	15.4%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r6pad8c_rep2_relationship: Choice of hypothetical political representative. Background variable for representative 2 in r6pad8c: relationship

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=1159 /-] [Invalid=0 /-]
Interviewer's instructions	[Part of conjunction experiment. The rep2_8C variables constitutes the full background of one of six representatives. rep1_8C and rep2_8C are presented together. See R6PAD8 in appendix]

Value	Label	Cases	Percentage
1	Married	371	32.0%
2	Living alone	374	32.3%
3	Cohabitant	414	35.7%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r6pad8c_rep2_education: Choice of hypothetical political representative. Background variable for representative 2 in r6pad8c: education

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=1159 /-] [Invalid=0 /-]
Interviewer's instructions	[Part of conjunction experiment. The rep2_8C variables constitutes the full background of one of six representatives. rep1_8C and rep2_8C are presented together. See R6PAD8 in appendix]

Value	Label	Cases	Percentage
1	Elementary school	280	24.2%
2	High school	304	26.2%
3	University	273	23.6%
4	Ph.D.	302	26.1%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r6pad8c_rep2_religion: Choice of hypothetical political representative. Background variable for representative 2 in r6pad8c: religion

Information	[Type= discrete] [Format=character] [Missing=*]

r6pad8c_rep2_religion: Choice of hypothetical political representative. Background variable for representative 2 in r6pad8c: religion

Statistics [NW/ W]	[Valid=1159 /-] [Invalid=0 /-]
Interviewer's instructions	[Part of conjunction experiment. The rep2_8C variables constitutes the full background of one of six representatives. rep1_8C and rep2_8C are presented together. See R6PAD8 in appendix]

Value	Label	Cases	Percentage
1	None	396	34.2%
2	Christianity	378	32.6%
3	Islam	385	33.2%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r6pad8c_rep2_work: Choice of hypothetical political representative. Background variable for representative 2 in r6pad8c: work

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=1159 /-] [Invalid=0 /-]
Interviewer's instructions	[Part of conjunction experiment. The rep2_8C variables constitutes the full background of one of six representatives. rep1_8C and rep2_8C are presented together. See R6PAD8 in appendix]

Value	Label	Cases	Percentage
1	Nursery employee	173	14.9%
2	Farmer	198	17.1%
3	Oil worker	190	16.4%
4	Self-employed	207	17.9%
5	IT-consultant	190	16.4%
6	No work experience	201	17.3%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r6pad8c_rep2_stance_1: Choice of hypothetical political representative. Background variable for representative 2 in r6pad8c: stance 1

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=1159 /-] [Invalid=0 /-]
Interviewer's instructions	[Part of conjunction experiment. The rep2_8C variables constitutes the full background of one of six representatives. rep1_8C and rep2_8C are presented together. See R6PAD8 in appendix]

Value	Label	Cases	Percentage
1	Strongly agree	169	14.6%
2	Agree	168	14.5%

Information	[Type= discrete] [Format=numeric] [Range= 1-4] [Missing=*]
Statistics [NW/ W]	[Valid=1147 /-] [Invalid=9495 /-]
Interviewer's instructions	[Randomizes if u=3]

Value	Label	Cases	Percentage
1	1	292	25.5%
2	2	289	25.2%
3	3	270	23.5%
4	4	296	25.8%
Sysmiss		9495	

r6ran9: [Randomizes if u=3]

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r6pad4a: Drawn out to win cash prize. Decision 1: How much do you want to give to a random person?

Information	[Type= discrete] [Format=numeric] [Range= 1-5] [Missing=*]
Statistics [NW/ W]	[Valid=4859 /-] [Invalid=5783 /-]
Pre-question	As a participant in the Norwegian Citizen Panel you and two other participants can be drawn out to win an extra cash prize of 1,000 kroner. If you are drawn out, you must all make two decisions. As decision 1, you must choose how much of the 1,000 kroner you would give a randomly selected member of the Norwegian Citizen Panel. As decision 2, you can choose to reduce the final prize of the one of the other two persons who has kept most of his or her 1,000 kroner.
Literal question	Decision 1: If you were drawn out, how much of the 1,000 kroner would you give to a randomly selected member of the Norwegian Citizen Panel?
Interviewer's instructions	[Asked if u=3 and ran9=1]

Value	Label	Cases	Percentage
1	0 kr	73	1.5%
2	250 kr	43	0.9%
3	500 kr	128	2.6%
4	750 kr	0	
5	1000 kr	24	0.5%
97	No answer	24	0.5%
98	Not asked	4567	94.0%
Sysmiss		5783	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r6pad4d: Drawn out to win cash prize. Decision 1: If drawn out, how much do you want to give to a random person?

Information	[Type= discrete] [Format=numeric] [Range= 1-5] [Missing=*]
Statistics [NW/ W]	[Valid=4859 /-] [Invalid=5783 /-]
Pre-question	As a participant in the Norwegian Citizen Panel you and two other participants can be drawn out to win an extra cash prize of 1,000 kroner. If you are drawn out, you must all make two decisions. As decision 1, you must choose how much of the 1,000 kroner you would give a randomly selected member of the Norwegian Citizen Panel. As decision 2, you can choose to reduce the final prize of the one of the other two persons who has given least of his or her 1,000 kroner.
Literal question	Decision 1: If you were drawn out, how much of the 1,000 kroner would you give to a randomly selected member of the Norwegian Citizen Panel?
Interviewer's instructions	[Asked if u=3 and ran9=4]

Value	Label	Cases	Percentage
1	0 kr	75	1.5%
2	250 kr	52	1.1%
3	500 kr	131	2.7%
4	750 kr	3	0.1%
5	1000 kr	25	0.5%
97	No answer	10	0.2%
98	Not asked	4563	93.9%
Sysmiss		5783	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r6pad4d1_1: Decision 2: If the one who got to keep the least has 0 kr, reduce the prize with:

Information	[Type= discrete] [Format=numeric] [Missing=*]
Statistics [NW/ W]	[Valid=4859 /-] [Invalid=5783 /-] [Mean=105.384 /-] [StdDev=78.963 /-]
Pre-question	Decision 2: In this decision, you can choose to reduce the final prize of the person who has given least of his or her 1,000 kroner.

r6pad5a1: Take a decision

Information	[Type= discrete] [Format=numeric] [Range= 1-2] [Missing=*]
Statistics [NW/ W]	[Valid=4859 /-] [Invalid=5783 /-]
Pre-question	Vi vil nå be deg om å svare på et spørsmål som handler om å ta en beslutning. Vi trekker ut 4 personer som blir betalt ut fra beslutningen de tar. Du er helt anonym og skal kun ta én beslutning. Du kan velge å gå til venstre eller høyre. Du blir tilfeldig plassert med en annen person som skal ta det samme valget. Hvor mye du tjener avhenger av valgene dere tar: Hvis begge går til venstre , får dere 800 kroner hver. Hvis du går til venstre og den andre går til høyre, får du 0 kroner og den andre får 1200 kroner Hvis du går til høyre og den andre går til venstre, får du 1200 kroner og den andre får 0 kroner Hvis begge går til høyre, får dere 400 kroner hver. Uansett hva den andre personen velger, tjener du mest ved å gå til høyre. Den samlede betalingen er høyest hvis begge går til venstre.
Literal question	Please take a decision.
Interviewer's instructions	[Asked if u=3 and ran10=1. Note: Respondents are asked to read a text on the previous page which contextualises the decision they are asked to make. The text is different from the one presented before R6PAD5B1.]

Value	Label	Cases	Percentage
1	I choose to go to the left	330	6.8%
2	I choose to go to the right	188	3.9%

r6pad6: To what extent is this choice acceptable?

Information	[Type= discrete] [Format=numeric] [Range= 1-5] [Missing=*]
Statistics [NW/ W]	[Valid=4859 /-] [Invalid=5783 /-]
Pre-question	As a participant in the Norwegian Citizen Panel, in the last round you were included in a draw for an extra monetary prize. 2 people were drawn out: person A and person B. Person A received 2,000 kroner and had to choose how much to share with person B. Who was actually drawn out is secret, but imagine that the person who received the money was a [age] [gender] from [region], with [education] and an annual income of [wage] kroner. The person chose to [choice].
Literal question	To what extent do you think that this choice is acceptable?
Interviewer's instructions	[Asked if u=1 OR u=3 and Note: the question wording is dependent on values given in the R6PAD6_background variables]

Value	Label	Cases	Percentage
1	To a very great extent	640	13.2%
2	To a great extent	655	13.5%
3	Somewhat	467	9.6%
4	Slightly	290	6.0%
5	Not at all	195	4.0%
97	No answer	107	2.2%
98	Not asked	2505	51.6%
Sysmiss		5783	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r6pad7: Reasoning for your answer about how acceptable this choice was [anonymized]

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=0 /-] [Invalid=0 /-]
Literal question	Can you give a reason for your answer about how acceptable this choice was?
Interviewer's instructions	[Asked if u=1 or u=3] [Data withheld for the sake of anonymity]

r6dv26: How should the government tighten up on various social security schemes?

Information	[Type= discrete] [Format=numeric] [Range= 1-3] [Missing=*]
Statistics [NW/ W]	[Valid=4859 /-] [Invalid=5783 /-]

r6dv26: How should the government tighten up on various social security schemes?

Pre-question	Imagine a situation in which the government is forced to tighten up on various social security schemes such as sickness benefit and unemployment benefit.
Literal question	There are three main ways of tightening up and we ask you to put a cross against the alternative that you think the government should choose:
Interviewer's instructions	[Asked if u=4]

Value	Label	Cases	Percentage
1	Raise the requirements for receiving benefit (this means having to work longer before being able to receive benefit and will mean that some who could have previously received benefit will not receive any benefit at all).	432	8.9%
2	Decrease the duration of benefit (this means not being able to receive benefit for as long as previously).	325	6.7%
3	Decrease the level of benefit (this means that everyone receiving benefit get a bit less than they would have done previously).	456	9.4%
97	No answer	43	0.9%
98	Not asked	3603	74.2%
Sysmiss		5783	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r65dv5: How great an advantage/disadvantage that immigrants come here?

Information	[Type= discrete] [Format=numeric] [Range= 1-7] [Missing=*]
Statistics [NW/ W]	[Valid=4859 /-] [Invalid=5783 /-]
Literal question	In your opinion how great an advantage or disadvantage is it for Norway that immigrants come to live here?
Interviewer's instructions	[Asked if u=4]

Value	Label	Cases	Percentage
1	Very great advantage	25	0.5%
2	Great advantage	152	3.1%
3	An advantage to some extent	466	9.6%
4	Neither an advantage nor a disadvantage	164	3.4%
5	A disadvantage to some extent	279	5.7%
6	Great disadvantage	103	2.1%
7	Very great disadvantage	59	1.2%

97	No answer	3	0.1%
98	Not asked	4603	94.7%
Sysmiss		5783	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r6dv63e_2_other: Yes, reasonable that The Norwegian Resistance Movement recieves the following amount yearly:

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=3 /-] [Invalid=0 /-]
Pre-question	Each year, the Norwegian government gives some financial support to various voluntary groups. Imagine that the neo-Nazi group The Norwegian Resistance Movement has applied for annual public support for its activities out of the national pot.
Literal question	Yes, it would be reasonable for the group to receive the following amount a year in public support:
Interviewer's instructions	[Asked if u=4 and ran20=5]

Value	Label	Cases	Percentage
10000		2	66.7%
50000		1	33.3%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r6lb1b: Thoughts when you read/hear the words 'asylum seeker'?

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=1126 /-]
Literal question	What do you think when you read or hear the words asylum seeker?
Post-question	Please write the first thing that comes into your mind. We want all types of answers; a couple of sentences would be good, or just a few words if that is better for you.
Interviewer's instructions	[Asked if u=4]

r6dv64: Does it worry you that last year, more asylum seekers came than anticipated?

Information	[Type= discrete] [Format=numeric] [Range= 1-5] [Missing=*]
Statistics [NW/ W]	[Valid=4859 /-] [Invalid=5783 /-]
Pre-question	Last year, more asylum seekers came to Norway than anticipated.
Literal question	Is this something that worries you?
Interviewer's instructions	[Asked if u=4]

Value	Label	Cases	Percentage
1	Yes, to a very great extent	198	4.1%
2	Yes, to a great extent	270	5.6%
3	Yes, somewhat	461	9.5%
4	No, not much	256	5.3%
5	No, not at all	49	1.0%
97	No answer	22	0.5%
98	Not asked	3603	74.2%
Sysmiss		5783	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r6dv65: Norwegian authorities' handling of the asylum situation

Information	[Type= discrete] [Format=numeric] [Range= 1-7] [Missing=*]
Statistics [NW/ W]	[Valid=4859 /-] [Invalid=5783 /-]
Literal question	How do you feel that the Norwegian authorities have handled the asylum situation so far?
Interviewer's instructions	[Asked if u=4]

Value	Label	Cases	Percentage
1	Very well	25	0.5%
2	Well	177	3.6%
3	Quite well	279	5.7%
4	Neither well nor badly	187	3.8%
5	Quite badly	300	6.2%
6	Badly	197	4.1%

r7pad14_6rows_5: Article 5. List of randomly selected articles by which the respondent has to pick which ones to read. Conjunction experiment.

Pre-question	We wish to study what media items people read. Below you will find some imaginary items similar to those you may find in Norwegian online newspapers. Please read all the headlines carefully and imagine that this is real.
Literal question	If you had to read [1 article /2 articles /3 articles], which [article /articles] would you have preferred to spend your time by? [Here follows a list of randomly chosen articles. See background variables]
Interviewer's instructions	[Asked if R7PAD14_version>1. Conjunction experiment. Respondents are exposed to a set of 6 random news and entertainment articles. The articles have a set of randomly drawn characteristics. R7PAD14_version randomly decides whether the respondent should be exposed of 4 articles or 6 articles. The order of which R7PAD14 and R7SELEXP2 is asked, is randomized. See R7SELEXP_order.] [Contact Sveinung Arnesen (Sveinung.Arnesen@uib.no) or Mikael Johannesson (Mikael.Johannesson@uib.no) for questions and complete documentation]
Notes	^f('R7PAD14_body')['5']^ (Vi ønsker å studere hvilke mediesaker folk leser. Under er noen tenkte saker vi har laget som

r7pad1a: Agree/disagree: Authorities given leave to detain persons they believe might be potential terrorists, suggested in Britain

Information	[Type= discrete] [Format=numeric] [Range= 1-7] [Missing=*]
Statistics [NW/ W]	[Valid=4689 /-] [Invalid=5953 /-]
Pre-question	In Britain it has been suggested that the authorities should be given leave to detain (keep in detention without a formal charge and without trial) persons they believe might be potential terrorists. Imagine that the authorities in Norway ask permission to detain persons they believe might be involved in terrorist activity. Some are of the opinion that the authorities should be given leave because this might reduce the risk of terrorism, others are of the opinion that the authorities should not be given leave because this is a breach of the basic rule that everyone is innocent until proven guilty.
Literal question	To what extent do you agree or disagree to the authorities being given leave to detain persons they believe might be potential terrorists?
Interviewer's instructions	[Asked if u=4 and ran17=1.]
Notes	I Storbritannia er det foreslått å gi myndighetene lov til å internere (holde i forvaring uten formell siktelse og dom

Statistics [NW/ W]	[Valid=4689 /-] [Invalid=5953 /-]
Pre-question	Norway’s Ministry of Defense has proposed a Long Term Plan for the country's military under which defense spending will increase by more than NOK 160 billion over the next two decades. Norwegian security experts have argued that such an increase is necessary to response to Russia’s growing military presence in the Baltic Sea region and to the deteriorating security situation.
Literal question	In your view, how justified is such a big increase in military spending?
Interviewer's instructions	[Asked if u=3 and ran30=5.]
Notes	Norges forsvarsdepartement har foreslått en langsiktig plan for landets forsvar, der forsvarsutgiftene vil øke med mer

Value	Label	Cases	Percentage
1	Very justified	81	1.7%
2	Somewhat justified	85	1.8%
3	Neither justified, nor unjustified	21	0.4%
4	Somewhat unjustified	13	0.3%
5	Not at all justified	8	0.2%
6	Do not know	18	0.4%
7	Not specified	2	0.0%
97	No answer	4	0.1%
98	Not asked	4457	95.1%
Sysmiss		5953	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

r7pad4a: Contribution to joint kitty: Random person excluded

Information	[Type= discrete] [Format=numeric] [Range= 1-11] [Missing=*]
Statistics [NW/ W]	[Valid=4689 /-] [Invalid=5953 /-]
Pre-question	We now ask you to make a decision whereby three persons will be selected to receive money. The following situation is the background for the decision you must make: Three participants of the Norwegian Citizens Panel are put together in a group. Every person in the group receives 1,000 kroner to begin with. Each person has to choose how much of his or her 1,000 kroner will be put into a joint kitty for the group. A person is drawn at random to be excluded from the group and is rewarded with 1,750 kroner. The two remaining people's contribution to the kitty is increased by 50 per cent and then divided equally between the two. The final cash prize paid to the participants selected to receive money will be the individuals share of the joint kitty and the money being kept.
Literal question	If you are one of the participants drawn out to win 1,000 kroner, how much would you put into the joint kitty?
Interviewer's instructions	[Asked if u=1 and ran18=1.]
Notes	Vi ber deg nå om å ta en beslutning hvor tre personer vil trekkes ut til å motta penger. Følgende situasjon er bakgru

NORSK MEDBORGERPANEL

Vi ønsker å studere hvilke mediesaker folk leser. Under er noen tenkte saker vi har laget som minner om de man kan finne i norske nettaviser. Vennligst les alle overskriftene nøye og se for deg at sakene er ekte.

Hvis du var nødt til å lese 3 saker, hvilke saker ville du foretrukket å bruke tiden din på?

	Kilde	Anbefalinger i sosiale medier	Overskrift
☐	Aftenposten	0 personer anbefaler	Disse TV-ene kommer verst ut i vår nye test
☐	Dagbladet	1211 personer anbefaler	Frp-politiker fordømmes etter Facebook-innlegg: «vi trenger flere muslimer i norske skoler»
☐	Dagens Næringsliv	1054 personer anbefaler	Tror Norge spiller uavgjort i morgendagens fotballkamp
☐	Klassekampen	106 personer anbefaler	Lokal Mdg-politiker – vil ta imot 5000 nye flyktninger
☐	Aftenposten	0 personer anbefaler	Sp-politiker får kjeft for forslag som vil øke inntektsforskjellene
☐	Dagens Næringsliv	98 personer anbefaler	Lokal Mdg-politiker skjelles ut – vil ta imot 5000 nye flyktninger

NORSK MEDBORGERPANEL

1 av 3

Folk har ulike politiske holdninger, og noen ganger er deres holdninger relatert til deres bakgrunn. Under har vi laget to tenkte politikere med forskjellig bakgrunn. Vi ønsker å vite hvilken av disse to du tipper vil være mest enig i påstanden under.

	Politiker 1	Politiker 2
Alder	60 år	50 år
Kjønn	Mann	Mann
Bosted	Sørlandet	Oslo
Sivilstatus	Bor alene	Bor alene
Utdanning	Universitet	Grunnskole
Religion	Ingen	Ingen
Arbeidserfaring	Bonde	Bonde

Vennligst velg hvem du tror er mest enig i følgende påstand:
«Staten bør bidra til å redusere inntektsforskjeller i samfunnet.»

Politiker 1 Politiker 2

R7PAD5 – exemplified with R7PAD5B

NORSK MEDBORGERPANEL

Vi er opptatt av å forstå hvordan folk oppfører seg i økonomiske valgsituasjoner. Vi vil derfor be deg om å ta én anonym beslutning hvor du kan trekkes til å motta penger.

Du og en annen tilfeldig person kan velge mellom en gul eller blå boks.

Hvis begge velger den gule boksen får dere 1000 kroner hver. Hvis du velger blå og den andre gul får du 1500 kroner og den andre får 0 kroner. Hvis begge velger blå får dere 500 kroner hver. Uansett hva den andre gjør tjener du mest på å velge blå. Vi trekker ut ti personer som mottar penger.
